Level 1 Geography 2025

91935 Demonstrate understanding of decision-making in response to a geographic challenge in the wider Pacific region

Credits: Five

Achievement	Achievement with Merit	Achievement with Excellence
Demonstrate understanding of decision-making in response to a geographic challenge in the wider Pacific region.	Explain decision-making in response to a geographic challenge in the wider Pacific region.	Evaluate decision-making in response to a geographic challenge in the wider Pacific region.

Check that the National Student Number (NSN) on your admission slip is the same as the number at the top of this page.

Answer ALL parts of the question in this booklet.

Pull out Resource Booklet 91935R from the centre of this booklet.

If you need more room for any answer, use the extra space provided at the back of this booklet.

Check that this booklet has pages 2–12 in the correct order and that none of these pages is blank.

Do not write in the margins (//////). This area will be cut off when the booklet is marked.

YOU MUST HAND THIS BOOKLET TO THE SUPERVISOR AT THE END OF THE EXAMINATION.

Make sure you have Resource Booklet 91935R. This contains **new** material on pages 10–15, as well as the resources you have viewed in class.

(a) Explain why rising sea levels are a challenge for Fiji and its people. Include supporting evidence from the resources in your discussion.

Perspectives: Ways in which people view and interpret environments. Including, but not limited to: economic, social, political, indigenous, and spiritual.

- Option 1 – **relocate** at-risk communities further inland
- Option 2 – build **nature-based** coastal defence structures to try to protect people who live near the coast
- Option 3 – build **man-made** coastal defence structures to try to protect people who live near the coast.

- [illegible]

People	Their viewpoint / perspective
Town councils	

- (c) (i) Choose (✓) ONE action that you think should be taken to meet the challenge of rising sea levels in Fiji.

☐ Option 1 – **relocate** at-risk communities further inland

☐ Option 2 – build **nature-based** coastal defence structures to try to protect people who live near the coast

☐ Option 3 – build **man-made** coastal defence structures to try to protect people who live near the coast.

Explain why you chose this option. To do so you should:

- consider the viewpoints and perspectives of the different groups of people involved
- evaluate why this option is better than the others
- integrate geographic terminology and a wide range of evidence from the resources to support your explanation.
