Exemplar F - Achieve

AS91338: Produce working drawings to communicate technical details of a design (4 credits)

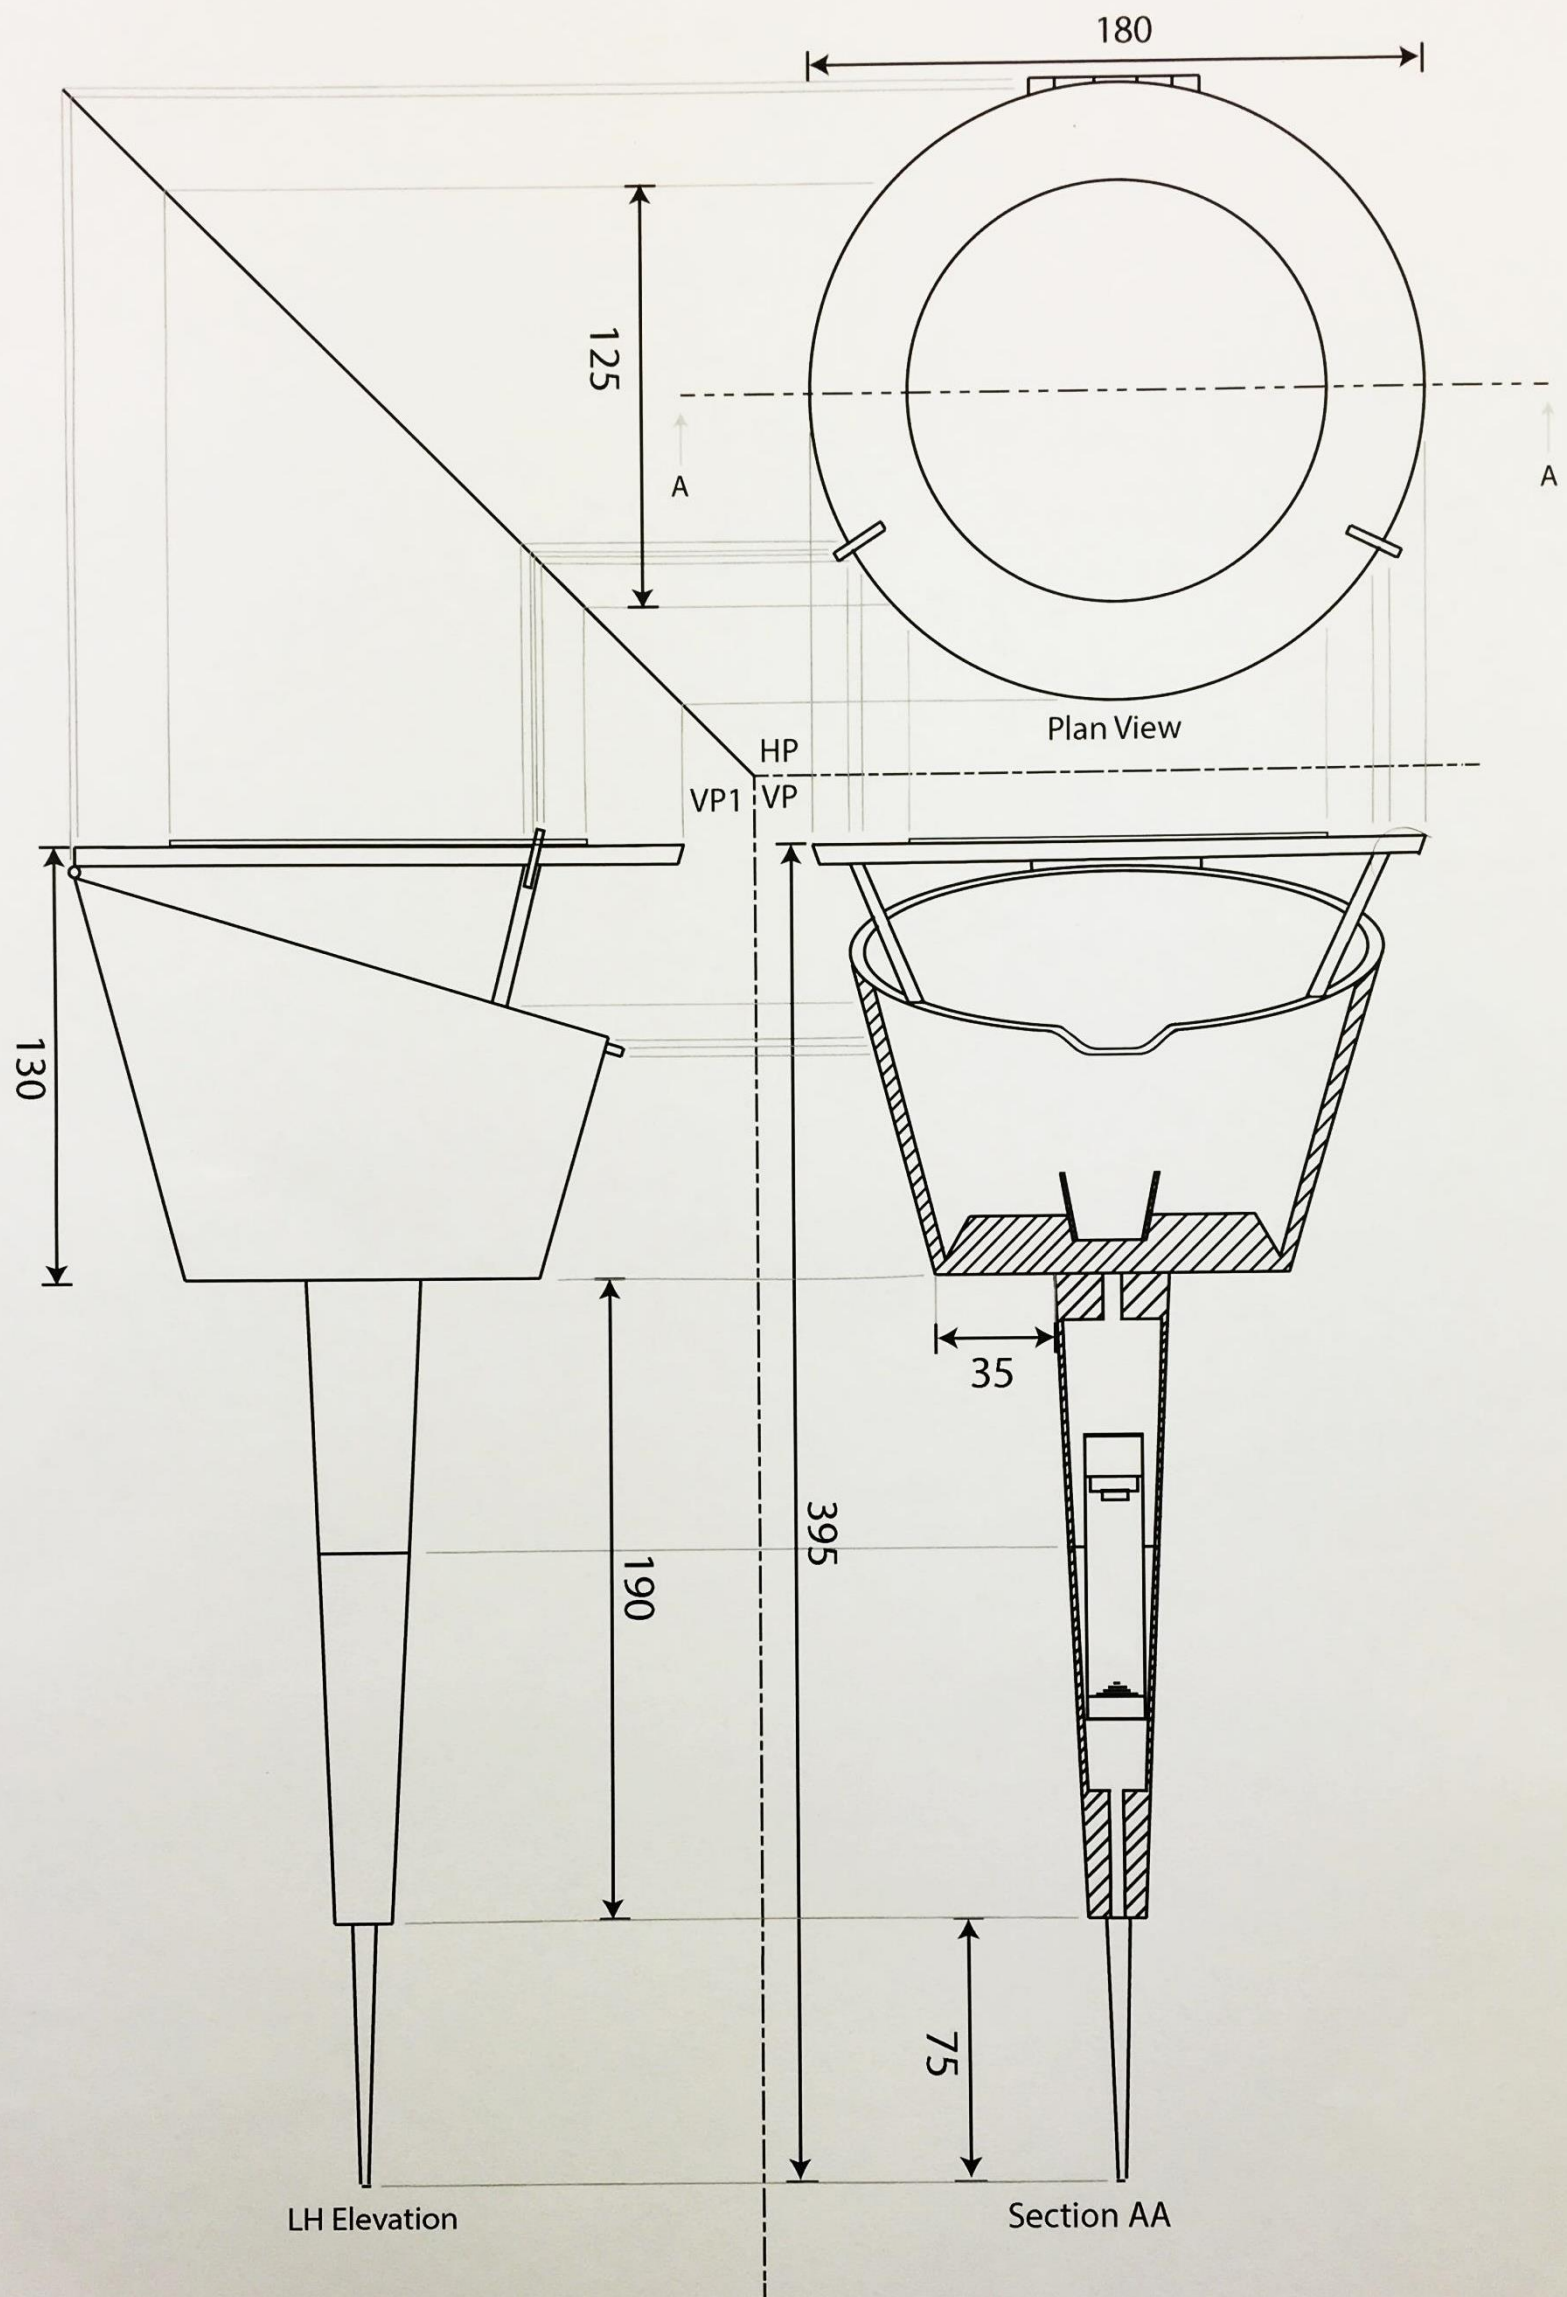

Achievement	Achievement with Merit	Achievement with Excellence
Produce working drawings to communicate technical details of a design.	Produce working drawings to clearly communicate technical details of a design.	Produce working drawings to effectively communicate technical details of a design.

Produce a set of related 2D instrumental working drawings that communicate technical details showing complex visual information .	Produce a set of working drawings that clearly communicate technical details showing complex visual information.	Produce a coherent set of working drawings that effectively communicate technical details showing complex visual information.
Demonstrate an ability to use drawing conventions in a working drawing.	Demonstrate an ability to apply drawing conventions appropriately to working drawings.	Demonstrate an ability to apply drawing conventions appropriately to working drawings.

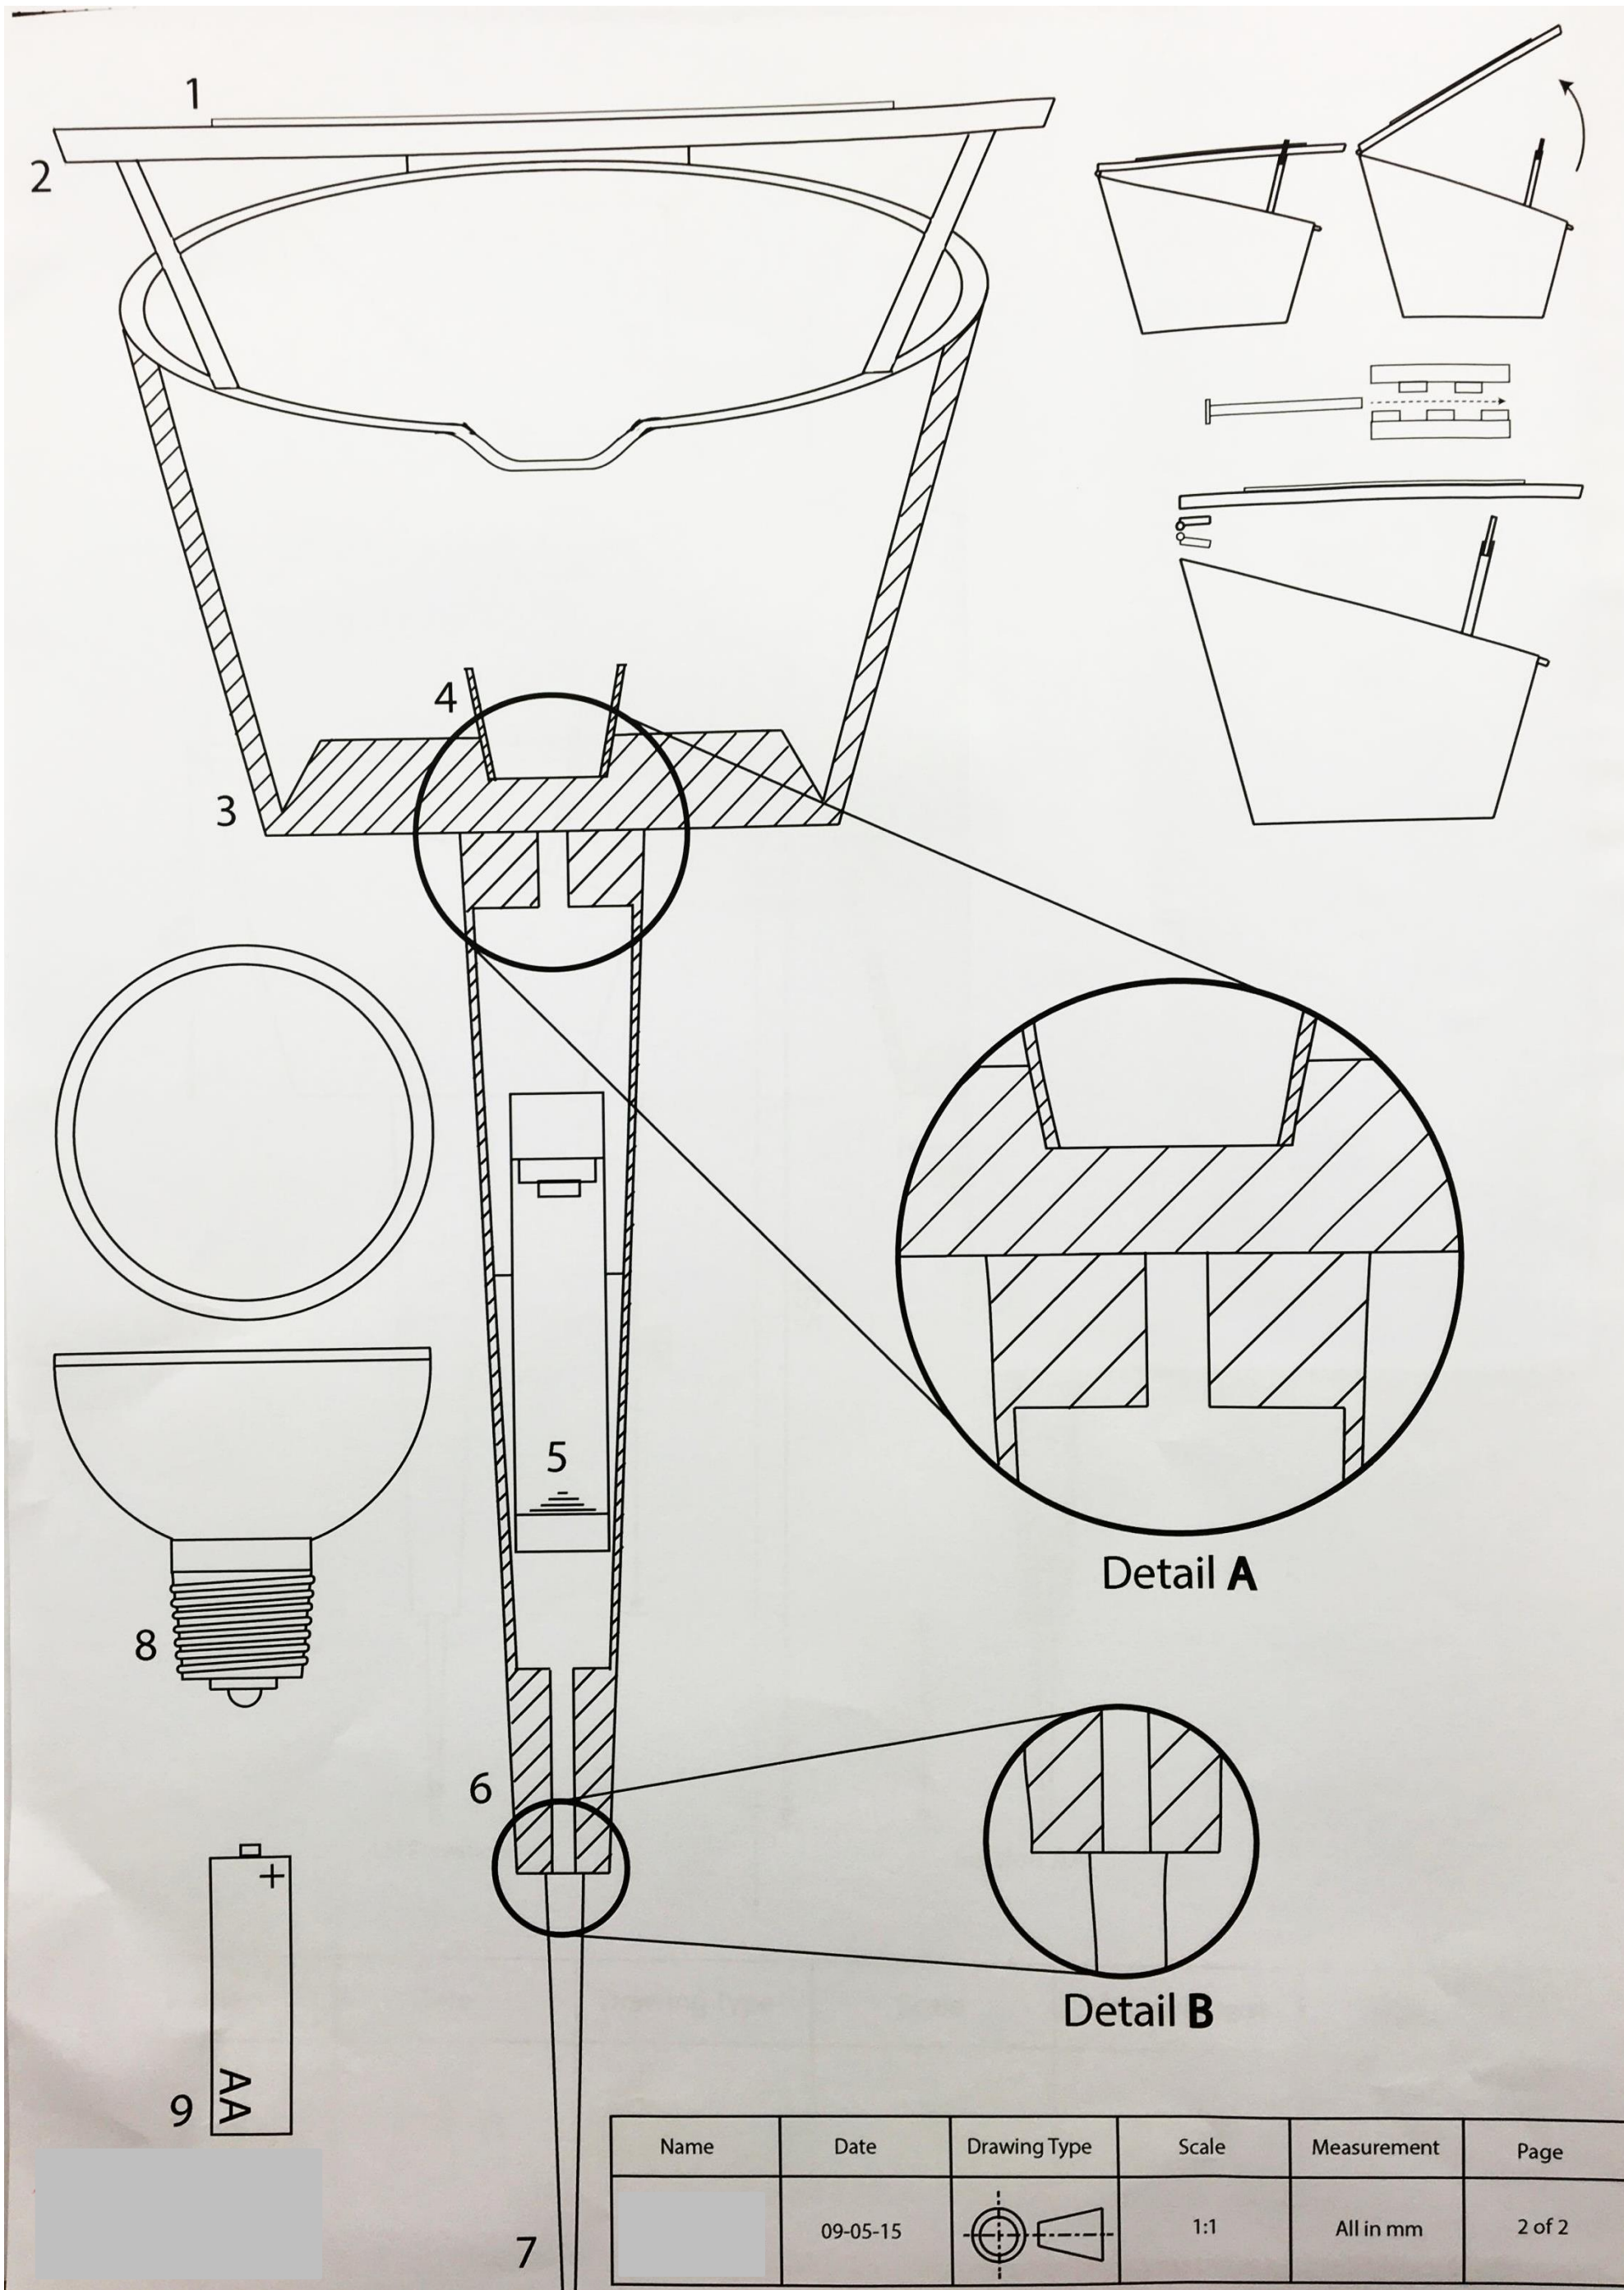

A

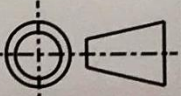

COMMENT:
A set of 2D working drawings has been produced that shows complex visual information. This set of drawings shows a plan, sectional elevation and an end elevation supported by an enlarged cross section and details. The views are labelled and referenced to one another. Section A-A communicates the technical details, but not clearly enough to show how the parts might fit together. The enlarged cross section and details do not add any more technical information than that already shown in the cross section. (They are just enlargements of the cross section).

Conventions are used and applied appropriately for this type of drawing.

Name	Date	Drawing Type	Scale	Measurement	Page
