## Refinements

## Final

## Brief

My brand is B.Eilish I am creating designs that promote a vocal artist called Billie Eilish. My designs represent creative ways to interpret her music and to represent the style and intent of her musical work.

Her unique, vibrant and bold colours helped me create so many different pieces of work. I have created a logo, posters, album cover and a magazine spread. Billie uses mysterious symbols to express her different emotions and sometimes clues for new music.
