Overall, is tourism beneficial for Barcelona? Explain why, or why not, and support your answer with the positive AND negative effects mentioned in the passage.

In 2017 15 million people visited Barcelona, this is a huge positive on the city as it's beneficial for the economy, cities tourist sites under construction, and for the local people learning about other cultures. By more tourists coming to the city it means that there are more jobs available for local people. Although working in tourism does mean that you can only work at certain times of the year as that is when tourists come. Tourism in cities is highly beneficial for the cities economy as tourists will spend and do spend money in shops, hotels and restaurants. But with this means that everything is ~~basically~~ a lot more busy during the day and night which can cause the locals to struggle with sleep because of noise. For the locals it also becomes very beneficial as they are able to learn and practice a second language, as well as learning about other countries cultures.

There is more space for you to answer this question on page 4 ➤

Although a big negative to tourists is that when they come to Barcelona they don't show much respect to the place or people and it is always be messy.

Also Mario's mother told Mario to make sure he eats healthy but Mario sees her eating chocolate multiple times a week. ~~Also~~ his mother complains about always being on his phone yet she's on it all the time for work and the ~~the~~ when Mario isn't on his phone she complains, e.g. Mario was with friends and his mother called and he didn't ~~ans~~ pick up his phone. //

According to this podcast, in what ways can pedal-powered machines benefit people and be a sustainable option for a rural community?

Justify your answer with specific evidence from the passage.

Pedal-powered machines are used mostly in South America in rural or remote areas where there is no electricity. Pedal-powered machines can be made to wash and dry clothes as well used for a paid job or even if you don't have work you are able to get a pedal-powered machine for nothing to make juice for people on hot days. These are sustainable because say it breaks you are to re use parts to build new things. //
