Marker commentary

This portfolio was verified and placed in the middle of the Achievement grade range as it clear fulfilled the criteria:

- Systematic development of ideas is demonstrated: Spherical forms representing planets are seen throughout the submission as the candidate explores galaxy references to frame the investigation. Colour, in the form of dark and twinkly surfaces, is used to tie together the varied approaches and to move the work forward methodically.
- An appropriate use of art-making conventions is demonstrated: scale is engaged with at varying stages of the exploration, including the introduction of the figure in Panel 2. Site-specific and body-oriented works are explored with understanding.
- The use of materials and techniques are appropriate to purpose: a range of materials are employed, demonstrating an understanding of appropriate sculptural conventions. An appropriate use of papier mâché, found imagery, and translucent surface are explored across the submission.
