Report on individual achievement standards

Achievement standard 92042: Demonstrate understanding of written Te Reo Māori Kūki 'Airani related to everyday contexts

Assessment

This examination provided three written texts for candidates to read, and accompanying questions to respond to. All texts covered a range of language, context, and situations relatable to level one candidates. Candidates demonstrate their own understanding of the texts and language by selecting relevant information from the texts and making clear connections from the text in their responses.

Commentary

The texts were appropriate and provided a good range of everyday contexts / topics. Candidates did not do as well on text two and the accompanying questions as they did with Questions One and Three. It seemed the candidates were not as confident with the question terminology in comparison to texts one and three. Overall, there were a range of responses but candidates who attempted all or most sections of the examination had a better chance of performing well.
