

Assessment Schedule – 2013

Geography: Demonstrate geographic understanding of population concepts (91008)

Evidence Statement

Question One		Expected Coverage
Not Achieved	N0	No response; no relevant evidence.
	N1	Partial description of the difference in population distribution between northern and southern hemispheres. OR: Partial diagram showing population distribution pattern(s). OR: Limited description of why the population is located where it is; no supporting evidence.
	N2	Description of the difference in population distribution between northern and southern hemispheres; little supporting evidence. OR: Partial diagram showing population distribution pattern(s); little supporting evidence. OR: Partial description of why the population is located where it is; little supporting evidence.
Achievement	A3	Description of the difference in population distribution between northern and southern hemispheres; supporting evidence. OR: Diagram showing population distribution pattern(s); little supporting evidence. OR: Description of why the population is located where it is; little supporting evidence. No reference to natural (physical) and cultural factors.
	A4	Description of the difference in population distribution between northern and southern hemispheres; supporting evidence. AND Diagram showing population distribution pattern(s); some supporting evidence, or some explanation. OR: Description of why the population is located where it is; some supporting evidence, or some explanation. Partial reference to natural (physical) and cultural factors.
Merit	M5	Description of the difference in population distribution between northern and southern hemispheres; supporting evidence. AND Diagram showing population distribution pattern(s); detailed supporting evidence. OR: Explanation of why the population is located where it is; detailed supporting evidence. Some reference to natural (physical) and cultural factors.
	M6	Description of the difference in population distribution between northern and southern hemispheres; supporting evidence. AND Diagram showing population distribution pattern(s); detailed supporting evidence. AND Explanation of why the population is located where it is; detailed supporting evidence. Reference to natural (physical) and cultural factors.

Excellence	E7	<p>Description of the difference in population distribution between northern and southern hemispheres; supporting evidence.</p> <p>AND</p> <p>Diagram showing population distribution pattern(s); integrated detailed supporting evidence; some insight shown.</p> <p>AND</p> <p>Full explanation of why the population is located where it is; some insight shown.</p> <p>Reference to natural (physical) and cultural factors.</p> <p>Reference to geographic concept (may be inferred).</p>
	E8	<p>Description of the difference in population distribution between northern and southern hemispheres; supporting evidence.</p> <p>AND</p> <p>Diagram showing population distribution pattern(s); integrated detailed supporting evidence.</p> <p>AND</p> <p>Full explanation of why the population is located where it is; insight shown.</p> <p>Reference to natural (physical) and cultural factors.</p> <p>Reference to geographic concept.</p>

Question Two		Expected Coverage
Not Achieved	N0	No response; no relevant evidence.
	N1	Any TWO parts in (a) and (b) correct. OR: Limited description of the composition of the named country or region's population; no supporting evidence.
	N2	Any THREE parts in (a) and (b) correct. OR: Partial description of the composition of the named country or region's population; no supporting evidence.
Achievement	A3	Any THREE parts in (a) and (b) correct. AND Description of the composition of the named country or region's population; very little supporting evidence. No reference to ideas from the diagram. OR: Any FIVE parts in (a) and (b) correct (MUST include all of (a) (iii)).
	A4	Any THREE parts in (a) and (b) correct. AND Description of the composition of the named country or region's population; some supporting evidence, or some explanation. Partial reference to ideas from the diagram.
Merit	M5	Any FOUR parts in (a) and (b) correct. AND Explanation of the composition of the named country or region's population; detailed supporting evidence. Some reference to ideas from the diagram.
	M6	Any FOUR parts in (a) and (b) correct. AND Explanation of the composition of the named country or region's population; detailed supporting evidence. Reference to ideas from the diagram.
Excellence	E7	Any FIVE parts in (a) and (b) correct. AND Full explanation of the composition of the named country or region's population; shows some insight; detailed supporting evidence. Reference to ideas from the diagram.
	E8	FIVE parts in (a) and (b) correct (MUST include all of (a) (iii)). AND Full explanation of the composition of the named country or region's population; integrated detailed supporting evidence. Reference to ideas from the diagram.

Question Three		Expected Coverage
Not Achieved	N0	No response; no relevant evidence.
	N1	TWO parts of the model named correctly. <i>OR:</i> Limited description of the reasons / factors that have caused the selected migration type in the named country or region; no supporting evidence. <i>OR:</i> Limited description of the impacts (effects) of the selected migration type on the named country or region; no supporting evidence.
	N2	THREE parts of the model named correctly. <i>OR:</i> Partial description of the reasons / factors that have caused the selected migration type in the named country or region; no supporting evidence. <i>OR:</i> Partial description of the impacts (effects) of the selected migration type on the named country or region; no supporting evidence.
Achievement	A3	ALL FOUR parts of the model named correctly: (1) Source / origin (2) Obstacles (to movement) (3) Destination (4) Counterflow. <i>OR:</i> Description of the reasons / factors that have caused the selected migration type in the named country or region; very little supporting evidence. <i>OR:</i> Description of the impacts (effects) of the selected migration type on the named country or region; very little supporting evidence. No reference to migration types. <i>OR:</i> THREE parts of the model named correctly. AND Description of the reasons / factors that have caused the selected migration type in the named country or region; very little supporting evidence. <i>OR:</i> Description of the impacts (effects) of the selected migration type on the named country or region; very little supporting evidence.
	A4	THREE or FOUR parts of the model named correctly. AND Description of the reasons / factors that have caused the selected migration type in the named country or region; some supporting evidence, or some explanation. <i>OR:</i> Description of the impacts (effects) of the selected migration type on the named country or region; some supporting evidence, or some explanation.

Merit	M5	<p>THREE or FOUR parts of the model named correctly. AND Explanation of the reasons / factors that have caused the selected migration type in the named country or region; some detailed supporting evidence. <i>OR:</i> Explanation of the impacts (effects) of the selected migration type on the named country or region; detailed supporting evidence.</p>
	M6	<p>ALL FOUR parts of the model named correctly. AND Explanation of the reasons / factors that have caused the selected migration type in the named country or region; some detailed supporting evidence. AND Explanation of the impacts (effects) of the selected migration type on the named country or region; detailed supporting evidence.</p>
Excellence	E7	<p>ALL FOUR parts of the model named correctly. AND Full explanation of the reasons / factors that have caused the selected migration type in the named country or region; integrated detailed supporting evidence; some insight shown. AND Full explanation of the impacts (effects) of the selected migration type on the named country or region; integrated detailed supporting evidence; some insight shown. NB: ONE of b (i) or (ii) may not be as well supported with evidence as the other.</p>
	E8	<p>ALL FOUR parts of the model named correctly. AND Full explanation of the reasons / factors that have caused the selected migration type in the named country or region; integrated detailed supporting evidence; shows insight. AND Full explanation of the impacts (effects) of the selected migration type on the named country or region; integrated detailed supporting evidence; shows insight.</p>

Judgement Statement

	Not Achieved	Achievement	Achievement with Merit	Achievement with Excellence
Score range	0 – 7	8 – 13	14 – 19	20 – 24
