## Evidence

*Note: There is no requirement for the map(s) and/or diagram(s) in part (a) to be detailed or to step up between A, M, and E. The answer must be read as a whole before applying holistic top-down judgement. There is no expectation that both parts will be of equal quality. The emphasis in the question is on comprehensively analysing the impacts on people. The impacts on the environment will not be as detailed or comprehensive, as the question does not ask for this.*
