

Assessment Schedule – 2017

Health: Analyse an international health issue (91462)

Assessment Criteria

Achievement	Achievement with Merit	Achievement with Excellence
<p>The candidate analyses a significant health issue of international concern.</p>		
<p><i>Analysis</i> involves applying a critical perspective to an international health issue through:</p>	<p><i>In-depth analysis</i> involves recommending strategies for addressing the named international health issue in a way that takes into account:</p>	<p><i>Perceptive analysis</i> involves recommending strategies based on a coherent explanation that connects:</p>
<ul style="list-style-type: none"> • explaining the nature of the international health issue and its implications on the well-being of people and society • explaining how the major determinants of health influence the named issue • recommending strategies to bring about more equitable outcomes in relation to the named health issue. 	<ul style="list-style-type: none"> • the influence of the major determinants of health on the issue • the impact of the major determinants of health on well-being. 	<ul style="list-style-type: none"> • the named international health issue and the influence of the major determinants of health on the issue to the underlying health concepts (hauora, socioecological perspective, health promotion, and attitudes and values).
<p>Analysis is supported by evidence (examples, quotations, and / or data from credible and current sources from 2013 onwards).</p>	<p>In-depth analysis is supported by detailed evidence (examples, quotations, and / or data from credible and current sources from 2013 onwards).</p>	<p>Perceptive analysis is supported by coherent and consistent evidence (examples, quotations, and / or data from credible and current sources from 2013 onwards).</p>

Evidence

A3	A4	M5	M6	E7	E8
<p>Explains why the named health issue is of international concern.</p> <p>Identifies TWO determinants of health that are influencing the named health issue.</p> <p>Explains how TWO named determinants contribute to the named health issue (one aspect of the answer may be inconsistent across the criteria).</p> <p>Explains implications for the short- and long-term well-being of people and society of the TWO named determinants.</p> <p>Recommends TWO strategies to bring about more equitable outcomes for people and society.</p> <p>Includes some supporting evidence.</p>	<p>Identifies TWO determinants of health that are influencing the named health issue.</p> <p>Explains how TWO named determinants contribute to the named health issue.</p> <p>Explains implications for the short- and long-term well-being of people and society of the TWO named determinants.</p> <p>Recommends TWO strategies to bring about more equitable outcomes for people and society.</p> <p>Includes supporting evidence.</p>	<p>Identifies TWO significant and relevant determinants of health that are influencing the named health issue:</p> <ul style="list-style-type: none"> • economic • political • cultural. <p>Explains how TWO named determinants contribute to the named health issue.</p> <p>Explains implications for the short- and long-term well-being of people and society of the TWO named determinants.</p> <p>Recommends TWO strategies to address the named determinants of health.</p> <p>Explains how the strategies will address the determinants of health, and the implications for well-being, to bring about more equitable outcomes for people and society.</p> <p>Includes some detailed supporting evidence.</p>	<p>Identifies TWO significant and relevant determinants of health that are influencing the named health issue:</p> <ul style="list-style-type: none"> • economic • political • cultural. <p>Explains how TWO named determinants contribute to the named health issue.</p> <p>Explains implications for the short- and long-term well-being of people and society of the TWO named determinants.</p> <p>Recommends TWO strategies to address the named determinants of health.</p> <p>Explains how the strategies will address the determinants of health, and the implications for well-being, to bring about more equitable outcomes for people and society.</p> <p>Includes detailed supporting evidence.</p>	<p>Identifies TWO significant and relevant determinants of health that are influencing the named health issue:</p> <ul style="list-style-type: none"> • economic • political • cultural. <p>Explains how TWO named determinants contribute to the named health issue.</p> <p>Explains implications for the short- and long-term well-being of people and society of the TWO named determinants.</p> <p>Recommends TWO strategies to address the named determinants of health.</p> <p>Explains how EACH strategy will address the determinants of health, and the implications for well-being, to bring about more equitable outcomes for people and society, with connections to the relevant underlying concepts (some may be less detailed).</p> <p>Includes consistent and coherent evidence.</p>	<p>Identifies TWO significant and relevant determinants of health that are influencing the named health issue:</p> <ul style="list-style-type: none"> • economic • political • cultural. <p>Explains how TWO named determinants contribute to the named health issue.</p> <p>Explains implications for the short- and long-term well-being of people and society of the TWO named determinants.</p> <p>Recommends TWO strategies to address the named determinants of health.</p> <p>Explains how EACH strategy will address the determinants of health, and the implications for well-being, to bring about more equitable outcomes for people and society, with strong connections to the relevant underlying concepts.</p> <p>Includes consistent and coherent evidence throughout.</p>

See **Appendix** for sample evidence.

N0 = No response; no relevant evidence.

N1 = Partial answer, but does not analyse the health issue.

N2 = Some relevant material, but insufficient evidence to meet requirements for Achievement.

Cut Scores

Not Achieved	Achievement	Achievement with Merit	Achievement with Excellence
0 – 2	3 – 4	5 – 6	7 – 8
