

**Assessment Schedule – 2019**

**Geography: Demonstrate geographic understanding of environments that have been shaped by extreme natural event(s) (91007)**

**Assessment Criteria**

<b>Achievement</b>	<b>Achievement with Merit</b>	<b>Achievement with Excellence</b>
<p><i>Demonstrating geographic understanding involves:</i></p> <ul style="list-style-type: none"> <li>• <b>describing</b> aspects of how extreme natural event(s) shape environments</li> <li>• including <b>supporting evidence</b>.</li> </ul>	<p><i>Demonstrating in-depth geographic understanding involves:</i></p> <ul style="list-style-type: none"> <li>• <b>explaining</b> aspects of how extreme natural event(s) shape natural and cultural environments</li> <li>• including <b>detailed supporting evidence</b>.</li> </ul>	<p><i>Demonstrating comprehensive geographic understanding involves:</i></p> <ul style="list-style-type: none"> <li>• <b>fully explaining</b> aspects of how extreme natural event(s) shape natural and cultural environments <b>using geographic terminology and concepts, and showing insight</b></li> <li>• <b>integrating detailed supporting evidence</b>.</li> </ul>

**Evidence**

**Question ONE: Vulnerability** (Geographic concept: Environments)

<b>N1</b>	<b>N2</b>	<b>A3</b>	<b>A4</b>	<b>M5</b>	<b>M6</b>	<b>E7</b>	<b>E8</b>
<p><b>Attempts to describe</b> ONE characteristic that makes people more vulnerable to the extreme natural event.</p>	<p><b>Partially describes</b> ONE characteristic that makes people more vulnerable to the extreme natural event.</p>	<p><b>Describes</b> ONE characteristics that make people more vulnerable to the extreme natural event.</p> <p>Includes <b>some supporting evidence</b> from the case study (or studies).</p>	<p><b>Fully describes</b> ONE characteristics that make people more vulnerable to the extreme natural event.</p> <p>Includes <b>supporting evidence</b> from the case study (or studies).</p>	<p><b>Partially explains</b> ONE characteristic that makes people more vulnerable to the extreme natural event.</p> <p>Includes <b>some detailed supporting evidence</b> from the case study (or studies).</p>	<p><b>Explains</b> ONE characteristic that makes people more vulnerable to the extreme natural event.</p> <p>Includes <b>detailed supporting evidence</b> from the case study (or studies).</p>	<p><b>Fully explains</b> ONE characteristic that makes people more vulnerable to the extreme natural event, showing <b>some insight</b> (an accurate and deep understanding of the response).</p> <p><b>Integrates detailed supporting evidence</b> from the case study (or studies).</p> <p><b>Includes</b> the geographic concept of <b>environments</b> (may be implied), and <b>uses some geographic terminology</b>.</p>	<p><b>Fully explains</b> ONE characteristic that makes people more vulnerable to the extreme natural event, showing <b>insight</b> (a comprehensive and full understanding of the response).</p> <p><b>Integrates detailed supporting evidence</b> from the case study (or studies).</p> <p><b>Integrates</b> the geographic concept of <b>environments</b>, and <b>uses geographic terminology</b>.</p>

**N0** = No response; no relevant evidence.

**Question TWO: Processes** (Geographic concept: Processes)

N1	N2	A3	A4	M5	M6	E7	E8
<p><b>Attempts to describe</b> the natural processes that operated to produce the extreme natural event, but provides little relevant information / understanding of processes.</p>	<p><b>Partially describes</b> the natural processes that operated to produce the extreme natural event.</p>	<p><b>Describes</b> the natural processes that operated to produce the extreme natural event.</p> <p>Includes <b>some supporting evidence</b> from the case study (or studies).</p>	<p><b>Fully describes</b> the natural processes that operated to produce the extreme natural event.</p> <p>Includes <b>supporting evidence</b> from the case study (or studies).</p>	<p><b>Partially explains</b> the natural processes that operated to produce the extreme natural event.</p> <p>Includes <b>some detailed supporting evidence</b> from the case study (or studies).</p>	<p><b>Explains</b> the natural processes that operated to produce the extreme natural event.</p> <p>Includes <b>detailed supporting evidence</b> from the case study (or studies).</p>	<p><b>Fully explains</b> the natural processes that operated to produce the extreme natural event, showing <b>some insight</b> (an accurate and deep understanding of the natural processes).</p> <p><b>Integrates detailed supporting evidence</b> from the case study (or studies).</p> <p><b>Includes</b> the geographic concept of <u>process</u> (may be implied), and <b>uses some geographic terminology</b>.</p>	<p><b>Fully explains</b> the natural processes that operated to produce the extreme natural event, showing <b>insight</b> (a comprehensive and full understanding of the natural processes).</p> <p><b>Integrates detailed supporting evidence</b> from the case study (or studies).</p> <p><b>Integrates</b> the geographic concept of <u>process</u>, and <b>uses geographic terminology</b>.</p>

**N0** = No response; no relevant evidence.

**Question THREE: Effects** (Geographic concept: Change)

N1	N2	A3	A4	M5	M6	E7	E8
<p><b>Attempts to describe</b> ONE effect the extreme natural event had on the natural or cultural environment identified, but provides little relevant information / shows little understanding of change.</p>	<p><b>Partially describes</b> ONE effect the extreme natural event had on the natural or cultural environment identified.</p>	<p><b>Describes</b> ONE effect the extreme natural event had on the natural or cultural environment identified.</p> <p>Includes <b>some supporting evidence</b> from the case study (or studies).</p>	<p><b>Fully describes</b> ONE effect the extreme natural event had on the natural or cultural environment identified.</p> <p>Includes <b>supporting evidence</b> from the case study (or studies).</p>	<p><b>Partially explains</b> ONE effect the extreme natural event had on the natural or cultural environment identified.</p> <p>Includes <b>some detailed supporting evidence</b> from the case study (or studies).</p>	<p><b>Explains</b> ONE effect the extreme natural event had on the natural or cultural environment identified.</p> <p>Includes <b>detailed supporting evidence</b> from the case study (or studies).</p>	<p><b>Fully explains</b> ONE effect the extreme natural event had on the natural or cultural environment identified, showing <b>some insight</b> (an accurate and deep understanding of the effects).</p> <p><b>Integrates detailed supporting evidence</b> from the case study (or studies).</p> <p><b>Includes</b> the geographic concept of <u>change</u> (may be implied), and <b>uses some geographic terminology</b>.</p>	<p><b>Fully explains</b> ONE effect the extreme natural event had on the natural or cultural environment identified, showing <b>insight</b> (a comprehensive and full understanding of the effects).</p> <p><b>Integrates detailed supporting evidence</b> from the case study (or studies).</p> <p><b>Integrates</b> the geographic concept of <u>change</u>, and <b>uses geographic terminology</b>.</p>

**N0** = No response; no relevant evidence.

**Cut scores**

<b>Not Achieved</b>	<b>Achievement</b>	<b>Achievement with Merit</b>	<b>Achievement with Excellence</b>
0 – 6	7 – 12	13 – 18	19 – 24
