

Assessment Schedule – 2019

Education for Sustainability: Analyse how different world-views, and the values and practices associated with them, impact on sustainability (91736)

Assessment Criteria

Achievement	Achievement with Merit	Achievement with Excellence
Analyse how different world-views, and the values and practices associated with them, impact on sustainability.	Analyse in depth how different world-views, and the values and practices associated with them, impact on sustainability.	Critically analyse how different world-views, and the values and practices associated with them, impact on sustainability.
<p>Analyses the values associated with different world-views, and how these values are expressed in various practices.</p> <ul style="list-style-type: none"> • Uses evidence to explain the relationship between these values and practices, and aspects of sustainability. • Draws conclusions about the present and future consequences of the different world-views for sustainability. 	Draws informed conclusions, based on evidence and examples, about the similarities and differences of the world-views in terms of their impact on aspects of sustainability.	Draws insightful conclusions about the complexities associated with different world-views (and their related values and practices), and how these complexities impact on aspects of sustainability. The complexities may include shifts over time, conflicting values within world-views, or different views about sustainability.
