

Assessment Schedule – 2023

Digital Technologies and Hangarau Matihiko: Present a reflective analysis of developing a digital outcome (91909)

Assessment Criteria

Achievement	Achievement with Merit	Achievement with Excellence
<p><i>Presenting a reflective analysis of developing a digital outcome involves:</i></p> <ul style="list-style-type: none"> explaining the digital outcome that was developed linking the outcome’s characteristics to decisions made in the development process, referring to: <ul style="list-style-type: none"> selection of tools and techniques used to develop the outcome the influence of stakeholder feedback ways of addressing implications and end-user considerations. 	<p><i>Presenting an in-depth reflective analysis of developing a digital outcome involves:</i></p> <ul style="list-style-type: none"> analysing how decisions made affected the development process, referring to: <ul style="list-style-type: none"> selection of tools and techniques used to develop the outcome the influence of stakeholder feedback ways of addressing implications and end-user considerations. explaining how new knowledge and skills guided the development process. 	<p><i>Presenting an insightful reflective analysis of developing a digital outcome involves:</i></p> <ul style="list-style-type: none"> critiquing the outcome and the development process and reflecting on what could have been done differently. drawing conclusions about the outcome and / or development process.

Cut Scores

Not Achieved	Achievement	Achievement with Merit	Achievement with Excellence
0 – 2	3 – 4	5 – 6	7 – 8

Evidence

N1	N2	A3	A4	M5	M6	E7	E8
<p>Identifies only one decision OR identifies two decisions but both have limited links to the digital outcome.</p> <p>The digital outcome is made with no underlying development process.</p>	<p>Identifies two decisions, but at least one response has limited links to the digital outcome.</p> <p>Lists information, but does not explain answers.</p> <p>Displays limited understanding of development process.</p>	<p>Understands links between the outcome and decisions made in the development process.</p> <p>Explains outcome, but explanation may be weak.</p> <p>Identifies links between the outcome and the development process.</p> <p><i>Some aspects of the response may be partial or weak.</i></p>	<p>Clearly understands and can identify links between the outcome and decisions made in the development process.</p> <p>Clearly links to digital components.</p> <p>Discusses an effective development process and outcome.</p> <p><i>The outcome is sufficiently complex to require a development process.</i></p>	<p>Analyses by comparing and contrasting different decisions and discusses the effects (realised or not) on the outcome.</p> <p>Explains how two examples of new knowledge / skills guided the development process. Links may be weak.</p> <p><i>Some aspects of the decision analysis response may be partial or weak.</i></p>	<p>Analyses by comparing and contrasting different decisions and discusses the effects (realised or not) on the outcome.</p> <p>Explains how two examples of new knowledge / skills guided the development process.</p> <p><i>Analysis is well-considered and relevant to the outcome.</i></p>	<p>Identifies aspects of the development process which could be improved.</p> <p>Critiques the outcome and development process to determine how either could be improved.</p> <p>Draws conclusions about the outcome or process.</p> <p>Clearly links to the digital components of the outcome.</p> <p><i>Some conclusions and critiques may be partial or weak.</i></p>	<p>Identifies aspects of the development process which could be improved.</p> <p>Critiques the outcome and development process to determine how both could be improved.</p> <p>Draws conclusions about the outcome and process.</p> <p>Clearly links to the digital components of the outcome.</p>

N0 = No response; no relevant evidence.
