Assessment Schedule – 2024

Digital Technologies and Hangarau Matihiko: Present a summary of developing a digital outcome (91899)

Assessment Criteria

Achievement	Achievement with Merit	Achievement with Excellence
*Present a **summary** of developing a digital outcome* involves: • describing the digital outcome that was developed • explaining decisions that were made in the development process.	*Present an **in-depth summary** of developing a digital outcome* involves: • discussing how the digital outcome addressed relevant requirements and implications.	*Present **a comprehensive summary** of developing a digital outcome* involves: • evaluating decisions made in the development process • discussing what could have been done differently to improve the digital outcome, based on insights gained in the development process.

Cut Scores

Not Achieved	Achievement	Achievement with Merit	Achievement with Excellence
0 – 2	3 – 4	5 – 6	7 – 8

Evidence

N1	N2	A3	A4	M5	M6	E7	E8
Makes relevant comments, but the response is incomplete or does not relate to a digital outcome, or is a design rather than a digital outcome. Makes relevant comments but the response is a design rather than a digital outcome.	The digital outcome is not at Level 7 of the New Zealand Curriculum. Makes relevant comments in some parts of the response. Has copyright issues.	The digital outcome is at Level 7 of the New Zealand Curriculum.					
		Describes the purpose of a digital outcome. **Explains** how undertaking research and / or design(s) influenced a key decision made about the direction of the digital outcome and its development.	Describes, **in detail**, the purpose of a digital outcome. **Clearly explains** how undertaking research and / or design(s) influenced a key decision made about the direction of the digital outcome and its development.			**Identifies** a digital component that was tested, and **evaluates** the impact testing had on the digital outcome.	Identifies a digital component that was tested, and **comprehensively evaluates** the impact testing had on the digital outcome.
	The digital outcome has mostly or all been created using online tools that simplify the process by utilising templates and / or a drag-and-drop system, with all content sourced from the internet.	Has named and used suitable software to create the digital outcome. **Identifies** a software tool and explains the techniques used to create part of the digital outcome.	Has named and used suitable software to create the digital outcome. Identifies a software tool and **clearly explains**, **in detail**, the techniques used to create part of the digital outcome.			**Evaluates** the overall performance of the final outcome, and supports the answer **with examples**.	**Comprehensively evaluates** the overall performance of the final outcome, and supports the answer with **specific** examples.
				Discusses an important requirement and gives details about how it was implemented in the digital outcome. **Discusses** a requirement that was influenced by feedback, including: the digital component related to the requirement, who gave feedback, the feedback received, and changes made to the component based on feedback, **giving examples**.	**Clearly discusses** an important requirement and gives specific details about how it was implemented in the digital outcome. **Clearly discusses** a requirement that was influenced by feedback, including: the digital component related to the requirement, who gave feedback, the feedback received, and changes made to the component based on feedback, giving **specific examples**.	**Discusses** what part of the development process needed improvement and what would change, **giving examples** of how the changes would impact the final digital outcome.	**Comprehensively discusses** what part of the development process needed improvement and what would change, giving **specific examples** of how the changes would impact the final digital outcome.
		Some aspects of the response may be partial or weak.		**Discusses** how cultural and / or ethical implications were considered and applied in the development of the digital outcome.	**Clearly discusses** how cultural and / or ethical implications were **genuinely considered** and applied in the development of the digital outcome, **giving specific examples**.		
		May have aspects with copyright issues.	Some aspects of the response may lack detail.				

N0 = No response; no relevant evidence.
