### Information relating to all achievement standards

Each standard will have ONE question with multiple parts.

Candidates should use business theory, knowledge of a large business, and / or a case study to illustrate their answers. A 'large business' refers to a business operating in New Zealand with more than 20 employees and / or with a regional or national significance.

The [Key Concepts](#) (enterprise, globalisation, citizenship, and sustainability) and the [Māori Concepts](#) (pūtake, tūrangā, tikanga, kaitiakitanga, and rangatiratanga) are relevant to all achievement standards, and should be incorporated throughout a Business Studies programme.

Māori concepts that relate to business may be assessed. Where this occurs, candidates will be given a definition or explanation of the term in the examination paper, and they will be required to apply or explain the concept in relation to a specific business context. Candidates may refer to any Māori business concept for any answer where relevant.

The assessment will be available to candidates in paper or digital format. Further information about digital external assessment can be found on the NZQA website.
