National Certificate in Agrichemical Application with strands in Livestock External Parasites, Total Vegetation Control, Aquatic, Broadacre, and Brush

Level 3 or 4

Credits 79-105

Purpose

This qualification is for people who work in specialist areas of agrichemical application. This qualification may follow on from the National Certificate in Rural Contracting (Introductory Skills) [Ref: 0228] and people completing it may choose to progress to the National Certificate in Rural Contracting (Management) with the strand in Agrichemical Application [Ref: 1003].

People awarded this qualification are able to demonstrate general knowledge of agrichemicals. The compulsory section includes specific knowledge of safety, environmental, NZS 8409:2004, and local body accountability requirements relating to agrichemicals and their application. They are able to conduct first aid, safely transport and apply agrichemicals, and manage agrichemicals in accordance with NZS 8409:2004 and the Hazardous Substances and New Organisms Act 1996 (HSNO). The elective section enables candidates to select and demonstrate agrichemical application-related knowledge and skills suited to their particular situation.

The holder must be able to demonstrate additional competence in one or more of the following specialist areas:

- Livestock external parasite control
- Total vegetation control
- Aquatic application
- Broadacre application
- Brush application.

Special Notes

Candidates who achieve credit for standards 21563 and 21564 may be eligible for Approved Handler test certification. Approved Handler test certificates are issued only by Test Certifiers appointed under Hazardous Substances and New Organisms Act 1996 (HSNO) legislation. For further information contact the Environmental Risk Management Authority (ERMA), telephone 0800ermanz, or go to <http://www.ermanz.govt.nz>.

This qualification, if accompanied by a minimum of 200 hours practical agrichemical application experience, is recognised by the NZ Agrichemical Education Trust (NZAET) as the pre-requisite for the GROWSAFE® Registered Chemical Applicators Certificate. For detailed information see <http://www.growsafe.co.nz/>.

Requirements for Award of Qualification

Award of NZQF National Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided on the New Zealand Qualifications Authority (NZQA) website: <http://www.nzqa.govt.nz/qualifications-standards/standards/standards-exclusion-list/>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

Previous versions of the qualification

Version 5 was republished to add reverse transition arrangements for expired standard 21564 – see table below.

Version 5 was issued following revision of the qualification to include a unit standard that is essential for some work situations and to correct the prerequisite diagram. Changes to structure and content included: credit range table updated; level of compulsory standard 21544 decreased from 4 to 3; standard 23436 added to the elective section; prerequisite diagram corrected and updated.

This qualification contains standards that replace earlier standards. For the purposes of this qualification, people who have gained credit for the expiring standards are exempt from the requirement to gain credit for the replacement standards – see table below.
