National Certificate in Employment Skills

Level 1

Credits 60

Purpose

The National Certificate in Employment Skills (NCES) recognises core skills and attributes necessary for successful employment and further learning. NCES is awarded to learners who have demonstrated competence in literacy and numeracy, and other personal and technical skills. These skills have been identified by employers as being important to ensure a learner is equipped to operate and be productive in the workplace.

Learners will continue to develop and grow as valued employees and demonstrate skills that contribute to lifelong learning.

This qualification is designed to be accessible so that learners are able to demonstrate competencies which will enable them to pathway onto skilled work and/or higher learning.

This qualification is intended to act as a springboard from which people may progress towards other higher level qualifications.

For the purposes of meeting the literacy and numeracy requirements, this qualification accepts credits from both unit standards and Level 1 recognised achievement standards. The literacy and numeracy requirements for this qualification can contribute to the literacy and numeracy requirements for NCEA Level 1.

Special Notes

To meet the literacy requirements, candidates may select either Set 1A or Set 1B. To meet the numeracy requirements, candidates may select either Set 2A or Set 2B. Candidates may not select a combination of standards from both sets in each Elective.

Requirements for Award of Qualification

Award of NZQF National Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided on the New Zealand Qualifications Authority (NZQA) website: <http://www.nzqa.govt.nz/qualifications-standards/standards/standards-exclusion-list/>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.
