## National Certificate in Security Management (Supervision) (Level 5)

**Level** 5

**Credits** 60

### Purpose

This certificate provides a nationally recognised qualification for those responsible for the supervision of security activities in an organisation or for the supervision of staff providing professional security services.

Award of the certificate recognises that the holder has demonstrated competence in the preparation and implementation of security plans, and in the supervision of staff working in the security area. It also recognises that the holder has demonstrated knowledge of the factors that influence the conduct and supervision of security operations.

The qualification comprises two components. Compulsory standards reflect the skills and knowledge required by all supervisors in the security industry. A range of elective standards provides flexibility within the qualification and recognises additional skills and knowledge considered by industry to be desirable but not mandatory.

Many people seeking this certificate may already be qualified as operators in the security field. They may hold the National Certificate in Security with strands in Court Security, Event Security, Mobile Patrol, Noise Control, retail Security, Secure Transport, and Site Security (Level 3) [Ref: 0227]. However, this is not a prerequisite.

People may progress from this certificate to the National Diploma in Security Management (Level 6) [Ref: 0562]. Many of the standards included in this qualification may be used to meet the requirements of the Level 6 diploma.

### Credit Range

	<b>Compulsory</b>	<b>Elective</b>
Level 5 credits	42	0-18
Level 6 credits or above	-	0-18
Minimum totals	42	18

## Requirements for Award of Qualification

### Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) Rules and Procedures publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

### Summary of Requirements

- Compulsory standards
- Elective – A minimum of 18 credits as specified

### Detailed Requirements

#### Compulsory

The following standards are required

Law and Security > Security > Security Management

ID	Title	Level	Credit

## Transition Arrangements

### Version 2

Version 2 was issued following a minor revision of the qualification to maintain currency until a thorough review can take place.

Changes to structure and content

- Elective set updated to include new domains in the Business Operations and Development subfield
- review date updated to 2009
- NZSCED code amended.

For detailed information see [Review Summaries](#) on the NZQA website.

Candidates may choose to complete the previous version or transfer to version 2.

It is not intended that anyone be disadvantaged by this revision, and the above arrangements have been designed for a smooth transition. However, anyone who feels they have been disadvantaged may appeal to the ElectroTechnology Industry Training Organisation at the address below.

### Other standard setting body whose standards is included in the qualification

NZQA

### Certification

The certificate will display the logos of NZQA, the ElectroTechnology Industry Training Organisation and the accredited organisation.

### Classification

This qualification is classified according to the NQF classification system and the New Zealand Standard Classification of Education (NZSCED) system as specified below.

DAS Classification		NZSCED	
Code	Description	Code	Description
1118	Law and Security > Security > Security Management	099905	Society and Culture > Other Society and Culture > Security Services

**Quality Management Systems**

Providers and Industry Training Organisations must be accredited by a recognised Quality Assurance Body before they can register credits from assessment against standards. Accredited providers and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Accreditation requirements and the moderation system are outlined in the associated Accreditation and Moderation Action Plan (AMAP) for each standard.
