

National Certificate in Commercial Road Transport (Goods Service) with strands in Heavy Rigid Vehicle Driver, and Heavy Combination Vehicle Driver, and with optional strands in Dairy Industry Transport, Log Transport, Overdimension and Overweight Load Transport, Bulk Flammable Liquids Transport, Bulk Gases Transport, Bulk Liquefied Petroleum Gas Transport, and Civil Construction Transport

Level 3

Credits 92-96

This qualification is *expiring*. The last date to meet the requirements is 31 December 2011.

Purpose

The National Certificate in Commercial Road Transport (Goods Service) with strands in Heavy Rigid Vehicle Driver and Heavy Combination Vehicle Driver, recognises that the holder has the skills necessary to be able to load, unload, and drive a heavy rigid goods vehicle or a heavy combination goods vehicle safely, efficiently, and lawfully, with regard for the rights of other road users, and for the general safety of the holder. In addition, the holder will have demonstrated a range of interpersonal, personal presentation, numeracy, literacy and communication skills required for the efficient conduct of the service.

Where necessary, the holder will have met the statutory and or regulatory requirements specified in the unit standards required.

Unit standards listed in the Heavy Rigid Vehicle Driver Strand and optional strands are also contained in the Core Elective. People intending to complete the Heavy Rigid Vehicle Driver strand or an optional strand will need to ensure they do not select unit standards from the Core Elective Lists A and B that are required for their chosen strand or optional strand.

The optional strands recognise that the holder has demonstrated the specialised skills required for transporting the class of goods specified in the strand. The inclusion of the optional strand unit standards in the Core Elective List A and the additional unspecified unit standards in the domains specified in Core Elective List B recognise the particular and diverse skills required by heavy vehicle commercial drivers.

This qualification does not authorise the holder to drive any class of motor vehicle on New Zealand roads without holding a current driver licence appropriate to the mass and configuration of the vehicle driven. Drivers of vehicles transporting dangerous goods must hold a driver licence with a Type D (Dangerous Goods) endorsement. People who operate goods transport services must hold a Goods Service Licence. Licences and endorsements are issued by the Land Transport NZ.

Replacement Information

This qualification replaced the National Certificate in Commercial Road Transport (Goods Service) with an optional strand in Combination Vehicle Driver [Ref: 0177].

Requirements for Award of Qualification

Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) *Rules and Procedures* publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

Summary of Requirements

- A minimum of 40 credits at Level 3 or above
- Core Compulsory standards
- Core Elective – A minimum of 27 credits as specified

One of the following strands is required

- Heavy Rigid Vehicle Driver Strand
- Heavy Combination Vehicle Driver Strand

The following strands are optional

- Dairy Industry Transport Optional Strand
- Log Transport Optional Strand
- Overdimension and Overweight Load Transport Optional Strand
- Bulk Flammable Liquids Transport Optional Strand
- Bulk Gases Transport Optional Strand
- Bulk Liquefied Petroleum Gas Transport Optional Strand
- Civil Construction Transport Optional Strand

4820	Explain cleaning processes and safe handling of cleaning chemicals in the dairy industry	3	4

ID	Title	Level	Credit
4825	Explain milk production, collection and reception in the dairy industry	3	4
4836	Explain clean in place systems used in the dairy industry	3	4
16313	Explain foot and mouth disease control in the collection and discharge of milk in the dairy industry	3	4

Manufacturing > Energy and Chemical Plant > Safety and Legislation for Energy and Chemical Plant

ID	Title	Level	Credit
3062	Identify, handle and store chemicals in an energy and chemical environment	3	5

Manufacturing > Pulp and Paper Manufacturing > Pulp and Paper Manufacturing Skills

ID	Title	Level	Credit
12898	Handle logs for further processing	3	10
12899	Sort and load logs onto a log deck for further processing	3	4
15825	Operate a wheeled loader in the pulp and paper industry	3	6

Planning and Construction > Construction Trades > Concrete Construction

ID	Title	Level	Credit
12023	Pump concrete	2	10
12039	Transport ready-mixed concrete by concrete truck	3	10

Planning and Construction > Construction Trades > Concrete Production

ID	Title	Level	Credit
12012	Maintain concrete mixing equipment and machinery	2	5

Service Sector > Commercial Road Transport > Commercial Road Transport Skills

ID	Title	Level	Credit
1735	Demonstrate knowledge of the New Zealand road transport industry	1	6
1737	Drive heavy vehicle on unsealed road surfaces	4	3
1738	Drive heavy vehicle in off-road environments	4	3
1739	Load, convey and unload hazardous substances by road transport	3	10

ID	Title	Level	Credit
1770	Demonstrate knowledge for the Transport Service Licence (Core)	4	5
1771	Demonstrate knowledge for the Transport Service Licence (Goods Service)	4	5
15166	Operate a constant mesh non-synchromesh transmission	4	3

Service Sector > Commercial Road Transport > Goods Service

ID	Title	Level	Credit
1754	Operate truck-mounted load lifting equipment	2	1
1756	Transport non-flammable liquids by road	4	5
1757	Transport flammable liquids by road	4	10
1759	Transport aggregates by truck	4	3
1760	Deliver base-course aggregates by truck	4	2
1761	Transport vehicles by road transporter	4	3
1762	Transport containerised cargo by road	4	3
1763	Transport logs by heavy motor vehicle	4	6
1764	Transport livestock by heavy motor vehicle	4	5
1765	Transport refrigerated cargo by road	4	3
1766	Transport overdimension or overweight loads by road	4	18
1767	Transport building structures by road	4	20
1768	Pilot overweight and overdimension loads	5	6
15159	Transport bottled gases by road	4	6
15160	Transport bulk gases by road	4	10
15161	Transport bulk liquefied petroleum gas by road tanker	4	10
17459	Demonstrate and apply knowledge of manual handling of goods	1	2
17679	Operate a truck mounted sidelifter	3	6
17680	Transport bulk dry goods by heavy motor vehicle	3	6

Service Sector > Cranes > Crane Operation

ID	Title	Level	Credit
3789	Sling and communicate during crane operations	3	22

Service Sector > Driving > Core Driving Knowledge and Skills

ID	Title	Level	Credit
17677	Demonstrate knowledge of safe night driving	2	2

Service Sector > Driving > Driver Licence Classes

ID	Title	Level	Credit
16606	Meet requirements for full Class 2 driver licence and demonstrate knowledge of licence requirements	2	2
16607	Meet requirements for full Class 3 driver licence and demonstrate knowledge of licence requirements	2	2

NQF Reverse Transition

In March 2006, this qualification [Ref: 0680] was reviewed. The review resulted in designating 0680 as expiring and in the development of a number of new and replacement qualifications.

Version 3 of the qualification was created to include reverse transition. Reverse transition provides an exemption from a later standard than the one listed in the qualification.

This qualification contains a standard, 15164, that was replaced by a later standard, 24089. For the purposes of this qualification, people who have gained credit for the replacement standard are exempt from the requirement to gain credit for the expiring standard.

In addition, the requirements for Land Transport NZ approved courses relating to Classes 2-5, Passenger and Vehicle Recovery Endorsement previously required unit standards 15164 and 1734. Following the implementation of the Land Transport Rule: Work Time and Logbooks 2007, only unit standard 24089 is required for the logbook component of these courses – exemption is therefore granted from both standards – see table below.

Credit for	Exempt from
24089	1734, 15164

NQF Transition

This qualification contains standards that replace earlier standards. For the purposes of this qualification, people who have gained credit for the expiring standards are exempt from the requirement to gain credit for the replacement standards – see table below.

Credit for	Exempt from
1211, 1213	17769
1305	3501
16670, 16671	18496
229	17373
1279	3483
1736	17972, 17973
1755	17974, 18079

Previous versions of the qualification

Version 2

This qualification was revised and reissued following the reviews of *Commercial Road Transport*, *Forestry* and *Motor Industry* unit standards.

Changes to structure and content

Core Compulsory

- Unit standards 229, 1279, and 3467 have been deleted and unit standards 3483 and 17373 added.
- Unit standard 1734 has been re-classified in the domain of *core driving knowledge and skills* and its level lowered from 4 to 2.

Core Elective

- The qualification requirements have been amended to ensure both strands and all except one of the optional strands are to be achieved at level 3.
- Elective List A – unit standards 1212, 1582, 3272, 14898, 16608, 16609, 16617, 16670 and 16671 have been deleted.
- Elective List A – unit standards 233, 1738, 1739, 1754, 1757, 1763, 1766, 1767, 3789, 4817, 4820, 4825, 4836, 6466, 6926, 6932, 6933, 8560, 13108, 13109, 15160, 15161, 15825, 16606, 16607, 16718, 17459, 17574, 17575, 17576, 17677, 17679, 17680, 17769 and 18496 have been added. These include unit standards from: old Elective List B; optional strands; and the replacement for expiring unit standards 1211, 16670 and 16671.
- A new Elective List B has been introduced and allows people to select up to a maximum of 10 credits from specified domains. The domains include complimentary skill areas to unit standards in Elective A, and the new domain of transportation of waste and recoverable resources.

Strands

- Heavy Rigid Strand: unit standards 16608, 17576, 17972, and 17973 are substitutes for 1736 and 16606 as the latter no longer meet industry needs for the basic qualification.
- Heavy Combination Strand: unit standards 16609, 17577, 17974 and 18079 are substitutes for 1755 and 16607 as the latter longer meet industry needs for the basic qualification.

Optional Strands

- Log Transport: 17769 has replaced expiring unit standards 1211, 1213, 1214, and 1215; credit total reduced from 20 to 18.
- Overdimension and Overweight Load Transport: credit total increased from 34 to 41.
- Bulk Flammable Liquid Transport, Bulk Gases Transport, and Bulk Liquefied Petroleum Gas Transport: credit total reduced from 28 to 26.
- Civil Construction Transport: credit total increased from 27 to 35.

People enrolled on programmes leading to the award of version 1 of this qualification had until 31 December 2003 to do so. The last date for award of version 1 was 31 December 2004.

Version 1 of this qualification replaced the National Certificate in Commercial Road Transport (Goods Service) with an optional strand in Combination Vehicle Driver [Ref: 0177] in November 1999.

People who wish to complete the National Certificate in Commercial Road Transport (Goods Service) with an optional strand in Combination Vehicle Driver [Ref: 0177] must do so by 31 December 2000. The final date for award of the replaced qualification is 31 December 2001.

The National Certificate in Commercial Road Transport (Goods Service) with an optional strand in Combination Vehicle Driver [Ref: 0177] will continue to be recognised by the NZ Road Transport and Logistics Industry Training Organisation.

Quality Management Systems

Providers and Industry Training Organisations must be accredited by a recognised Quality Assurance Body before they can register credits from assessment against standards. Accredited providers and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Accreditation requirements and the moderation system are outlined in the associated Accreditation and Moderation Action Plan (AMAP) for each standard.
