

National Certificate in Wool Harvesting (Machine Shearing Fine Wool) (Level 4)

Level 4

Credits 140

This qualification has been **reviewed**. The last date to meet the requirements is 31 December 2020.

Transition Arrangements

This qualification was republished in January 2018 to extend the last date for enrolment from 31 December 2017 to 31 December 2018 and extend the last date of assessment to 31 December 2020.

This qualification has been reviewed and replaced by the New Zealand Certificate in Shearing (Blade/Crossbred/Fine) (Level 4) [Ref: 2401].

The last date for entry into programmes leading to this qualification is 31 December 2018.

People currently working towards this qualification should complete it rather than transfer to the replacement qualification.

For detailed information see [Review Summaries](#) on the NZQA website.

National Certificate in Wool Harvesting (Machine Shearing Fine Wool) (Level 4)

Level	4
Credits	140

Purpose

This qualification is for people who wish to machine shear fine wool sheep at a sustained output under variable conditions in the New Zealand wool harvesting industry.

All standards in this qualification are compulsory because shearing contains a set of well-defined skills and knowledge that apply across all woolsheds.

Holders of this qualification are able to shear above average tallies per day, with an economy of effort and blow use, and with precise timing of foot, hand and eye movements as well as positioning of sheep. The qualification also recognises the knowledge and skills required to shear and tailor comb selection to sheep condition; diagnose and correct the most common faults in machinery and handpieces; and undertake gear experting.

It is recommended that before embarking on this qualification, candidates have either completed the National Certificate in Wool Harvesting (Machine Shearing Fine Wool) (Level 3) [Ref: 1052] or have the appropriate prior skills and knowledge required in order to cope with the demands of this qualification.

This qualification is part of a series developed for the wool harvesting sector. A qualification pathways diagram can be found at the end of this document.

Replacement Information

This qualification is a part replacement for the Machine Shearing Senior strand of the replaced National Certificate in Shearing [Ref: 0571].

Credit Range

Level 4 credits	140
Total	140

Requirements for Award of Qualification

Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) Rules and Procedures publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

Summary of Requirements

-
- Compulsory standards

Detailed Requirements

Compulsory

The following standards are required

Agriculture, Forestry and Fisheries > Wool Harvesting > Shearing

ID	Title	Level	Credit
15040	Conduct gear experting for machine shearing	4	40
20105	Machine shear fine wool sheep at a sustained output, under variable conditions	4	100

Transition Arrangements

Version 2

Version 2 was issued following the review of the wool harvesting industry standards and qualifications in September 2009. The classification in the title has changed from Shearing to Wool Harvesting.

For detailed information see [Review Summaries](#) on the NZQA website.

This qualification contains a standard that replaced an earlier standard. For the purposes of this qualification, people who have gained credit for the expired standard are exempt from the requirement to gain credit for the replacement standard – see table below.

Credit for	Exempt from
15045	20105

There are no implications for transition.

It is not intended that anyone be disadvantaged by this review. However, anyone who feels they have been disadvantaged may appeal to the Agriculture Industry Training Organisation at the address below.

Previous version of the qualification

The standards and qualifications for the wool harvesting sector were reviewed in 2003. This qualification is one of seven new qualifications that replaced the National Certificate in Shearing with strands in Machine Shearing Junior, Machine Shearing Intermediate, Machine Shearing Senior, Blade Shearing Intermediate, and Blade Shearing Senior [Ref: 0571]. This qualification is a part replacement for the Machine Shearing Senior strand of the replaced National Certificate in Shearing [Ref: 0571].

Certification

This certificate will display the logos of NZQA, the Agriculture Industry Training Organisation and the accredited organisation.

Classification

This qualification is classified according to the NQF classification system and the New Zealand Standard Classification of Education (NZSCED) system as specified below.

NQF Classification		NZSCED	
Code	Description	Code	Description
297	Agriculture, Forestry and Fisheries > Wool Harvesting	050110	Agriculture, Environmental and Related Studies > Agriculture > Wool and Fibre Harvesting

Quality Management Systems

Providers and Industry Training Organisations must be accredited by a recognised Quality Assurance Body before they can register credits from assessment against standards. Accredited providers and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Accreditation requirements and the moderation system are outlined in the associated Accreditation and Moderation Action Plan (AMAP) for each standard.
