

## National Certificate in Seafood Risk Management (Vessel Operations Compliance) (Level 6)

**Level** 6

**Credits** 40

This qualification has been **reviewed**. The last date to meet the requirements is 31 December 2020.

### Transition Arrangements

This qualification has been reviewed and replaced by New Zealand Certificate in Seafood (Level 5) with strands in Aquaculture, Seafood Processing, and Commercial Fishing [Ref: 3129].

The last date for entry into programmes leading to the replaced qualification is 31 December 2018. The last date to meet the requirements of the replaced qualification is 31 December 2020 at which point the qualification will be designated discontinued.

People currently working towards the replaced qualifications must complete its requirements by 31 December 2020.

For detailed information see [Review Summaries](#) on the NZQA website.

### NQF Registration Information

| Process      | Version | Date       | Last Date for Assessment |
|--------------|---------|------------|--------------------------|
| Registration | 1       | July 2008  | December 2013            |
| Revision     | 2       | March 2010 | December 2020            |
| Review       | 3       | April 2016 | December 2020            |

## Standard Setting Body

It is anticipated that no existing candidates will be disadvantaged by these transition arrangements. However, anyone who feels that they have been disadvantaged may appeal to Primary ITO at the address below. Appeals will be considered on a case by case basis.

## National Certificate in Seafood Risk Management (Vessel Operations Compliance) (Level 6)

**Level 6**

**Credits 40**

### Purpose

This qualification is for people who are responsible for the management of compliance requirements in seafood vessel operations. These people may include the skipper, vessel owner, or quota manager.

The qualification comprises an elective section which recognises the knowledge and skills of those people responsible for managing legislative compliance and corresponding systems in the workplace. Candidates may choose from standards that focus on managing the systems for legal compliance for seafood harvesting on a commercial fishing vessel, managing the systems for legal compliance for seafood processing on a commercial fishing vessel, and managing the Licensed Fish Receiver systems. It gives them the flexibility to choose the standards relevant to their own role in a seafood vessel operation.

This qualification builds on the National Certificate in Seafood Risk Management (Vessel Operations Compliance) (Level 5) [Ref: 1394].

### Credit Range

|                          | Elective |
|--------------------------|----------|
| Level 6 or above credits | 40       |
| Total                    | 40       |

### Requirements for Award of Qualification

#### Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) Rules and Procedures publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

## Summary of Requirements

- Elective – A minimum of 40 credits as specified

## Detailed Requirements

### Elective

A minimum of 40 credits

Agriculture, Forestry and Fisheries > Seafood > Seafood Risk Management

| ID    | Title   | Level | Credit |
|-------|---|-------|--------|
| 16563 | Manage the systems for legal compliance for seafood harvesting on a commercial fishing vessel | 6     | 20     |
| 16564 | Manage the systems for legal compliance for seafood processing on a commercial fishing vessel | 6     | 20     |
| 19520 | Manage the Licensed Fish Receiver systems   | 6     | 30     |

## Transition Arrangements

### Version 2

Version 2 was issued to revise the title of the qualification to better specify the target audience.

Candidates currently working towards version 1 of this qualification may either complete the requirements for that version or transfer to version 2. All new candidates for these qualifications will be enrolled onto version 2.

For detailed information see Review Summaries on the NZQA website.

It is not intended that anyone is disadvantaged by this revision, and the above arrangements have been designed for a smooth transition. However, anyone who feels they have been disadvantaged may appeal to the New Zealand Industry Training Organisation at the address below.

## Certification

The certificate will display the logos of NZQA, the New Zealand Industry Training Organisation and the accredited organisation.

## Classification

This qualification is classified according to the NQF classification system and the New Zealand Standard Classification of Education (NZSCED) system as specified below.

| NQF Classification |   | NZSCED |   |
|--------------------|---|--------|---|
| Code               | Description   | Code   | Description   |
| 2107               | Agriculture, Forestry and Fisheries > Seafood > Seafood Risk Management | 050702 | Agriculture, Environmental and Related Studies > Fisheries Studies > Seafood Harvesting (Fishing) |

**Quality Management Systems**

Providers and Industry Training Organisations must be accredited by a recognised Quality Assurance Body before they can register credits from assessment against standards. Accredited providers and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Accreditation requirements and the moderation system are outlined in the associated Accreditation and Moderation Action Plan (AMAP) for each standard.
