Assessment specifications:

Candidates must be capable of consistently working safely as a flooring team member under supervision to the current health and safety standards. Performance must reflect relevant workplace requirements, job specific instructions, and accepted standards of behaviour.

Common hazards include those frequently encountered in both domestic and commercial environments, including construction sites.

Moving, handling, and storing includes contexts that are typical in the flooring trades, for example in and out of vehicles and storage areas.

Assessment may be in a flooring trades workplace or a simulated work environment.
