Pārongo aromatawai me te taumata paearu | Assessment information and grade criteria

Assessment specifications:

If required, to gain access to all the areas to be inspected, all entrance doors, hatches, inlet and exhaust ducts, service and access doors, etc. should be opened by Aircraft Engineers or competent airline staff as applicable. Care should be taken to ensure that all doors and covers which were opened for inspection purposes are securely closed on completion of the inspection by Aircraft Engineers or competent airline staff as applicable.

Assessments must be conducted in an active airport environment to ensure practical application to reflect the standards of an aviation workplace.

Evidence presented for assessment against this skill standard must be in accordance with enterprise procedures.

Definitions:

Reference to *enterprise procedures* means that all activities must comply with the requirements contained in the current airport exposition, current airport company manuals and procedures, where applicable, and any relevant legislative and/or regulatory requirements, which may include but are not limited to: Civil Aviation Act 2023, relevant Civil Aviation Rules, Aviation Crimes Act 1972, Aviation Security Service Policies and Procedures, New Zealand Defence Force (NZDF) Policy.

Dangerous goods refer to substances and articles identified as such in ICAO Document 9284 - Technical Instructions for the Safe Transport of Dangerous Goods by Air.

Relevant item or substance refers to dangerous goods, weapons, explosives, and firearms as identified in Civil Aviation Act 2023 and the Aviation Crimes Act 1972.
