|---|---|
| 3. Apply training principles to develop working dog capabilities. | <p>a. Apply core principles of canine learning and behaviour modification.</p> <p>b. Conduct targeted training exercises to develop, maintain or enhance operational readiness.</p> <p>c. Evaluate training outcomes and adjust techniques to meet operational goals.</p> |

### Pārongo aromatawai me te taumata paearu | Assessment information and grade criteria

#### *Assessment specifications:*

Assessments must be conducted in an active or simulated airport environment to ensure practical application to reflect the standards of an aviation workplace.

Evidence presented for assessment against this skill standard must be in accordance with enterprise procedures.

#### *Definitions:*

*Aerodrome* means any defined area of land or water intended or designed to be used either wholly or partly for the landing, departure, and surface movement of aircraft; and includes any building, installations, and equipment on or adjacent to any such area used in connection with the aerodrome or its administration.

The term *airport* refers to aerodrome as per Civil Aviation Rules.

*Aviation working dog* is a generic term to describe a working dog within an aviation environment. Examples could include but are not limited to a military working dog, Aviation Security explosive detector dog, Customs detector dog, biosecurity detector dog.

Reference to *enterprise procedures* means that all activities must comply with the requirements contained in the current airport exposition, current airport company manuals and procedures, and any relevant legislative and/or regulatory requirements, which may include but are not limited to: Civil Aviation Act 2023, relevant Civil Aviation Rules, MPI Code of Welfare – Dogs, New Zealand Defence Force (NZDF) Policy.

### *Ngā momo whiwhinga | Grades available*

Achieved

### Ihirangi waitohu | Indicative content

Implementing health and safety protocols

- Overview of aviation workplace health and safety legislation and protocols.
- Risk assessment and mitigation strategies.
- Safe transport procedures: vehicle setup, crate standards, and transit logistics.
- Basic veterinary first aid procedures, including wound care, heat stress, and dehydration.

## Managing kennel operations and canine welfare

- Kennel hygiene standards, cleaning protocols, pest control, and biosecurity.
- Environmental management: temperature, ventilation, noise control.
- Nutrition and hydration for working dogs.
- Grooming, exercise, and rest cycles.
- Behavioural monitoring: signs of stress, fatigue, or illness.
- Record-keeping and health monitoring.
- Use and maintenance of issued equipment: leashes, harnesses, muzzles, transport crates.

## Applying training principles

- Principles of basic canine learning: classical and operant conditioning.
- Obedience commands and agility drills.
- Scent detection techniques.
- Use of training aids and environmental conditioning.
- Monitoring and evaluating training effectiveness.
