

**40945****Conduct screening using explosive trace detection in an aviation workplace**

<b>Kaupae   Level</b>	4
<b>Whiwhinga   Credit</b>	5
<b>Whāinga   Purpose</b>	People credited with this skill standard are able to conduct screening using explosive trace detection in an aviation workplace in support of aviation security and safety, contributing to airport security and operational effectiveness.

**Hua o te ako me Paearu aromatawai | Learning outcomes and assessment criteria**

<b>Hua o te ako   Learning outcomes</b>	<b>Paearu aromatawai   Assessment criteria</b>
1. Conduct screening using explosive trace detection in an aviation workplace.	<ul style="list-style-type: none"> <li>a. Set up, check, and operate explosive trace detection (ETD) equipment in an aviation workplace.</li> <li>b. Conduct ETD sampling process in an aviation workplace.</li> <li>c. Record ETD analysis information for evidential purposes in an aviation workplace.</li> </ul>

**Pārongo aromatawai me te taumata paearu | Assessment information and grade criteria***Assessment specifications:*

Assessments must be conducted in an active or simulated airport environment to ensure practical application to reflect the standards of an aviation workplace.

Evidence presented for assessment against this skill standard must be in accordance with enterprise procedures.

*Definition:*

Reference to *enterprise procedures* means that all activities must comply with the requirements contained in the current airport exposition, current airport company manuals and procedures, where applicable, and any relevant legislative and/or regulatory requirements, which may include but are not limited to: Civil Aviation Act 2023, relevant Civil Aviation Rules, Aviation Crimes Act 1972, Aviation Security Service Policies and Procedures, New Zealand Defence Force (NZDF) Policy.

***Ngā momo whiwhinga | Grades available***

Achieved

## Ihirangi waitohu | Indicative content

### Technical skills in ETD equipment operation

- Setting up, calibrating, and operating ETD equipment according to enterprise procedures.
- Adherence to occupational health and safety guidelines during operations.

### Sampling and screening processes

- Performing ETD sampling to screen individuals and a range of articles (e.g., baggage, goods, machinery) in compliance with legislative and enterprise requirements.
- Analysing samples to differentiate between positive and negative results and responding appropriately to positive detections.

### Data recording and evidence management

- Maintaining accurate records of equipment checks, calibration results, sampling processes, and detection outcomes.
- Reporting and saving alarms and calibrations for evidential purposes.
