Pārongo aromatawai me te taumata paearu | Assessment information and grade criteria

Assessment specifications:

Transport facilities could include buses, taxis, car parks, access roads, disabled access.

Building facilities could include lighting, signs, air conditioning and heating, toilets, stairs, escalators.

Concessions could include banking, retail, food outlet.

Baggage handling facilities could include trolleys, conveyers, carousels.

Customer service facilities could include signage, information services, first aid, availability of documentation, airline facilities.

Assessments must be conducted in an active airport environment to ensure practical application to reflect the standards of an aviation workplace.

Evidence presented for assessment against this skill standard must be in accordance with enterprise procedures.

Definitions:

Aerodrome means any defined area of land or water intended or designed to be used either wholly or partly for the landing, departure, and surface movement of aircraft; and includes any building, installations, and equipment on or adjacent to any such area used in connection with the aerodrome or its administration.

Airport refers to aerodrome as per Civil Aviation Rules.

Reference to **enterprise procedures** means that all activities must comply with the requirements contained in the current airport exposition, current airport company manuals and procedures, and any relevant legislative and/or regulatory requirements, which may include but are not limited to: Civil Aviation Act 2023, relevant Civil Aviation Rules, New Zealand Defence Force (NZDF) Policy.

Operational readiness refers to the state in which all systems, processes, infrastructure, personnel, and safety measures are fully prepared and capable of supporting safe, efficient, and compliant airport operations. It ensures that the airport can deliver its intended services without disruption, meeting regulatory, operational, and customer experience standards.

Ngā momo whiwhinga | Grades available

Achieved

Ihirangi waitohu | Indicative content

Assessing public amenities

- Transport facilities: layout, access, and flow of buses, taxis, car parks, access roads, and disabled access.
- Building facilities: infrastructure such as lighting, signage, HVAC systems, toilets, stairs, and escalators.
- Concessions: commercial services like banking, retail, and food outlets, and their role in passenger experience.

Assessing baggage handling facilities

- Baggage systems: function and layout of trolleys, conveyers, and carousels.
- Operational checks: identifying common issues and maintenance needs.
- Health and safety: manual handling protocols and hazard identification.

Assessing terminal readiness

- Security facilities: layout and function of screening areas, surveillance, and access control.
- Customer service facilities: signage, information desks, first aid, documentation availability, and airline counters.
- Passenger experience: accessibility, wayfinding, and service responsiveness.
