FIELD MANUFACTURING

Correction to *Joinery* qualification

National Certificate in Joinery (Craftsperson) [Ref: 0386]

The qualification listed above, which was first registered in October 1997, has been issued as version 4 to correct an error that occurred when the qualification was maintained and issued as version 3 in July 2003.

Date new version published **April 2005**

The review of this qualification is planned to take place in **2005**

Main changes

The accidental omission in version 3 of the qualification of standards in the Joinery Machinery domain in the compulsory set has been rectified. The error was made when the qualification details were transferred to the new template.

Changes to structure and content

- Eleven unit standards from the Joinery Machinery domain in the compulsory set were reinstated after having been inadvertently omitted from version 3.
- Details of replacements for standard 10172 in version 2 were reinstated.

Transition

No candidate may be awarded version 3 because the requirements in that version were incorrect. Therefore, Version 3 of this qualification **is not** recognised by industry.

Version 2 of this qualification will continue to be recognised by industry.
