The NZQA National Qualification Services (NQS) has consulted on its decision to exit the unit standards listed above, which were registered in August 1997, on the basis of usage. However, at the time the application for deregistration was made a significant newly identified need for the standards emerged, and the decision has been made to extend the period of registration.

The reason for the rollover is that the unit standards have not been used sufficiently to warrant a review at this stage. However, a minor revision has been made to unit standard 8743 to clarify evidence requirements, other changes include updating curricula.

The review of these unit standards is planned to take place during 2006.
