FIELD MANUFACTURING

Revision of *Petrochemical Industry* qualification

National Certificate in Petrochemical Industry (Production) (Level 4) with strands in Control Room Operations; Field Operations; Steam Generation; Storage, Transmission and Transfer; and Supervision and Quality [Ref: 0981]

The NZ Extractive Industries Training Organisation (EXITO) has revised the qualification listed above that was registered in December 2002.

Date new version published **December 2004**

The review of this qualification is planned to take place in **December 2007**

Reason for the revision

This qualification required maintenance following the NZQA Business and Management review of unit standards in the Quality Management domain.

Main changes resulting from the revision

The changes made to the unit standards in the Quality Management domain impacted on the Supervision and Quality strand of the qualification decreasing the qualification total with this strand by one credit from 150 to 149 credits.

Changes to structure and content

- Credits for unit standard 8087 decreased from 6 to 5
- Level for unit standard 8086 increased from 3 to 4
- Level for unit standard 8077 decreased from 4 to 3 and title updated
- Title of unit standard 8085 updated
- EXITO telephone and facsimile contact numbers updated
- Qualification total with Supervision and Quality strand decreased from 150 to 149, changing the overall qualification total to 109-149 depending on strand.

Transition

People part way through an earlier version of the qualification may choose to complete that version or transfer to version 3.

Anyone who feels disadvantaged by these transition arrangements should contact:
