Rollover of *glass container manufacturing* unit standards and revision of unit standard 18770

Subfield	Domain	Id
Glass and Glazing	Glass Container Manufacturing	18768-18772, 18919-18924

The Plastics and Materials Processing Industry Training Organisation has decided that the unit standards listed above, which were registered in November 2001 and January 2002, should have their period of registration extended.

The reason for the rollover is that the unit standards have not been used sufficiently to warrant a review at this stage.

The review of these unit standards is planned to take place during 2005.
