FIELD MANUFACTURING

Rollover of *Cablemaking* and *Plastics Processing Technology* unit standards

Subfield	Domain	Id	Reg. Date
Cablemaking	Cable Production	14652-14662	May 1998
	Cable Products and Testing	14650, 14651, 14663	May 1998
Plastics Processing Technology	Plastics Materials	17460	May 2000

The Plastics and Materials Processing Industry Training Organisation has decided that the unit standards listed above, which were registered as shown, should have their period of registration extended.

The reason for the rollover is that the unit standards have not been used sufficiently to warrant a review at this stage.

The review of these unit standards is planned to take place during 2005 and 2006.
