NZQA has revised the unit standard listed above, which was registered in August 2003.

The review of this unit standard is planned to take place during 2008.

**Date new versions published****October 2004****Reason for the revision**

The assessment and moderation system that supports this unit standard identified a mismatch between the unit standard and the assessment supporting material on the NZQA website at [www.nzqa.govt.nz/for-providers/resources/supportedlearning.html](http://www.nzqa.govt.nz/for-providers/resources/supportedlearning.html). It was decided that the explanation of 'crossing boundaries' in the assessment supporting material should replace the definition of 'boundaries' in special notes of the unit standard.

**Main changes resulting from the revision**

An explanation of 'crossing boundaries' in the range to element 2 is taken from the assessment supporting material and replaces special note 3 in the unit standard.
