FIELD MANUFACTURING

Rollover and Revision of *Boatbuilding* unit standards

Subfield	Domain	Id
Boating Industries	Boatbuilding	18158-18171

The Boating Industry Training Organisation has decided that the unit standards listed above, which were registered in March 2001, should have their period of registration extended.

The reason for the rollover is to maintain the currency of the unit standards until they have been reviewed. One unit standard, 18165, has been revised to update the entry information.

A full review of all unit standards and national certificates has already commenced with some new and modified unit standards being written at present. The Boating Industry Training Organisation intends to complete the review process during 2005.

Date new versions published **February 2005**

New comments by date **March 2005**

Expiry date of new versions of the unit standards **December 2006**
