

## **FIELD                    MANUFACTURING**

### **Revision of *Solid Wood Processing* qualifications**

**National Certificate in Solid Wood Processing (Level 2) [Ref: 0807]**

**National Certificate in Solid Wood Processing (Level 3) [Ref: 0808]**

**National Certificate in Solid Wood Processing (Level 4) with strands in Sawmilling, Timber Grading, Timber Yarding, Wood Drying and Wood Preservation [Ref: 0809]**

The Forest Industries Training and Education Council (FITEC) has revised the qualifications listed above that were registered in January 2001.

**Date new versions published**

**February 2005**

**The review of these qualifications is planned to take place in 2006**

### **Reason for the revision**

Industry requested that unit standards 13108 and 13109 be added to the last (balance rule) elective in all three of these qualifications. These unit standards recognise training outcomes considered to add to the welfare and wellbeing of the workers in the Solid Wood Processing as well as the Forestry sectors of industry.

### **Main changes resulting from the revision**

Unit 13108, *Describe effects of hydration and nutrition on safety, health and performance of forestry workers* and Unit 13109, *Demonstrate knowledge of factors which impair the performance of forestry workers*, were added to the last elective of each qualification.

### **Transition**

As the revision increases the range of options available, trainees may continue to complete the previous version of the qualifications or change to the revised versions.
