

FIELD ENGINEERING AND TECHNOLOGY

Correction to and Maintenance of *Demolition* qualification

National Certificate in Demolition (Introductory Skills) (Level 2) [Ref: 1085]

InfraTrain New Zealand has revised the above qualification that was registered in March 2004.

Date new version published

February 2005

The review of this qualification is planned to take place in 2008.

Reason for the revision

The qualification required corrections to the credit totals and to the compulsory set, which contained a repeated set of unit standards in the list. The opportunity was taken to update the details for reviewed unit standard 5627, to reflect new title, classification and credits.

The qualification has been issued as Version 2. There are no transition implications.
