Revision and Rollover of *Airport Operations* unit standards

Subfield	Domain	Id
Aviation	Airport Operations	8874-8876, 8878-8882, 8884-8888, 11669, 13414-13423, 17347-17357

The Aviation, Tourism and Travel Training Organisation has decided that the unit standards listed above, which were registered in August 1997, June 1998 and April 2000, should have their period of registration extended.

In the case of unit standards 13414-13423, the reason for the rollover is that the unit standards have not been used sufficiently to warrant a review at this stage.

In the case of unit standards 8874-8876, 8878-8882, 8884-8888, 11669 and 17347-17357, the reason for the rollover is to maintain the currency of the unit standards until they have been reviewed.

The opportunity was taken to revise all of these unit standards in order to reflect current legislation, to correct several errors, and to accommodate some minor formatting and grammatical editing matters.

The review of these unit standards is planned to take place during 2007.
