FIELD MANUFACTURING

Revision and Rollover of *Dairy Workplace Health and Safety* unit standard 17612

Subfield	Domain	Id
Dairy Manufacturing	Dairy Workplace Health and Safety	17612

The New Zealand Industry Training Organisation has revised and extended the period of registration for the unit standard listed above, which was registered in December 2002. The reason for the rollover is to maintain the currency of the unit standard until it has been reviewed.

The review of this unit standard is planned to take place during 2006.

Date new version published **July 2005**

New comments by date **July 2006**

Expiry date of new version of the unit standard **December 2007**

Reason for the revision

The reason for the revision was to update legislation, make minor editorial amendments and correct errors. The title and credit value were amended as shown in the table below.

Main changes resulting from the revision

Legislation has been updated, and amendments have been made to the title, credit value, elements and performance criteria.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

None.
