

- Sundry editorial changes to performance criteria.
- Amendments to levels/credits to better reflect the level of skill required by the candidate, the extent of supervision, and the overall learning demand.

**Unit standards categorised as category C or D expire at the end of December 2006.**

#### **Impact on existing provider accreditations**

None.

#### **Impact on Accreditation and Moderation Action Plan (AMAP)**

None.

#### **Impact on existing qualifications**

The following Competenz qualifications are not materially affected by the changes. They will be updated when they are next reviewed.

<b>Qualification title</b>	<b>Standard in the qualification</b>
National Certificate in Food and Related Products Processing (Level 2) [Ref: 0342]	4809, 4810
National Certificate in Engineering Machining and Toolmaking (Level 4) [Ref: 0123]	4810, 4811

#### **Summary of main changes to standards' Ids, classification, titles, levels, and credits**

The following summary shows the changes made to the standards as a result of the review. All changes are in **bold**.

<b>Key to review category</b>	
<b>A</b>	Dates changed, but no other changes are made - the replacement standard carries the same Id and a new version number
<b>B</b>	Changes made, but the overall outcome remains the same - the replacement standard carries the same Id and a new version number
<b>C</b>	Major changes that necessitate the registration of a replacement standard with a new Id
<b>D</b>	Standard will expire and not be replaced
