

FIELD MANUFACTURING**Correction to the replacement information for some *Meat Processing* unit standards**

Subfield	Domain	Id
Meat Processing	Fellmongery Processing	16483
	Meat Industry – Further Processing	20225, 20231
	Slaughter and Dressing	16463, 16464, 16474

New versions of the above unit standards, which were developed by the New Zealand Industry Training Organisation, have been published to correct the replacement information. The standards in question were reviewed and were last registered in October 2004, apart from 16464, which was re-registered in April 2005.

Date new versions published	July 2005
Comments by date	October 2008 (no change)
Expiry date of new versions of the unit standards	December 2009 (no change)
Comments by date for unit standard 16464	April 2009 (no change)
Expiry date of new version of unit standard 16464	December 2010 (no change)

Summary of correction

The unit standards identified above contained incorrect replacement information subsequent to their review. The replacement information has now been corrected. Unit standard 16464 was reviewed in August 1999 and again in April 2005. The obsolete replacement information for that unit standard has been summarised in a special note.
