Competenz has decided that the twenty-one unit standards listed above, which were registered in October 1999, April 2001, and November 2001, should have their period of registration extended.

The opportunity was also taken to update unit standard titles in entry information and to update the moderation option to match AMAP 0013. The revised standards are identified in **bold**.

Competenz is currently engaged in a major review of mechanical engineering qualifications, and currency of standards in this domain is being maintained until the qualifications have been reviewed.

The review of these unit standards is planned to take place during 2006/2007
