

FIELD MANUFACTURING**Review of *Joinery* qualifications**

This review report was first published in March 2006. However, the transition dates in the qualifications were incorrect. Those errors have now been corrected and the qualifications reissued on the Framework.

Date versions reissued

April 2006

The following report now states the correct transition dates.

National Certificate in Joinery (Craftsperson) [Ref: 0386]

National Certificate in Joinery with strands in Cabinetry, Exterior Joinery, and Stairs [Ref: 0387]

National Certificate in Joinery (Laminate Fabrication) [Ref: 0390]

The Joinery Industry Training Organisation has completed the review of the qualifications listed above that were registered in October 1997 and September 2000.

Date reviewed versions published

March 2006

The review was carried out because feedback from industry, training providers, and moderators indicated that additional standards needed to be added to the qualifications to reflect changes in industry practice.

All stakeholders were consulted by mail and email. Industry people and training providers with specific expertise attended a review meeting, and were also consulted individually for their comments and feedback.

The Joinery Industry Training Organisation is now satisfied that the views of all stakeholders have been taken into consideration for the new versions of the qualifications.

Main changes resulting from the review

Titles and credits have been updated as a result of the review of standards and two new standards have been added to each of the qualifications.

National Certificate in Joinery (Craftsperson) [Ref: 0386]

Changes to structure and content

- Titles for standards 2522, 2553, and 17136 have been updated.
- The credits for standard 2547 have increased.
- Standards 19605 and 21811 have been added to the Elective Group A section of the qualification to reflect changes in industry practice.

Transition

People currently working towards version 2 or 4 of this qualification may either complete the requirements for that version or transfer their results to version 5.

National Certificate in Joinery with strands in Cabinetry, Exterior Joinery, and Stairs [Ref: 0387]

Changes to structure and content

- Standards 19605 and 21811 have been added to the Cabinetry Strand Elective section of the qualification to reflect changes in industry practice.

Transition

People currently working towards version 2 or 3 of this qualification may either complete the requirements for that version or transfer their results to version 4.

National Certificate in Joinery (Laminate Fabrication) [Ref: 0390]

Changes to structure and content

- The title of standard 2555 has been updated.
- Standards 19605 and 21811 have been added to the qualification to reflect changes in industry practice.

Transition

People currently working towards version 2 or 3 of this qualification may either complete the requirements for that version or transfer their results to version 4.

The last date for entry to training programmes or courses for version 3 is December 2006.

The last date for award of version 2 or 3 is December 2009.

Appeals

It is not intended that anyone be disadvantaged by this review, and the above arrangements have been designed for a smooth transition. However, anyone who feels they have been disadvantaged may appeal to the Joinery Industry Training Organisation. Any enquiries should be directed to:
