

FIELD ENGINEERING AND TECHNOLOGY**Revision and Rollover of *Telecommunications* unit standards**

Subfield	Domain	Id
Telecommunications	Telecommunications – Management and Operational Support	4968
	Telecommunications – Service Delivery	7064, 7065, 17397, 17485-17494, 20851, 20852

The ElectroTechnology Industry Training Organisation has decided that the unit standards listed above, which were registered in May 2000 and September 2004, should have their period of registration extended to allow for inclusion in a revised qualification.

The industry has studied the unit standards and does not consider that any changes to content are necessary because they still meet industry requirements.

References were updated, typographical errors were corrected, and some formatting changes, including the purpose statements, were made for clarity.

The review of these unit standards is planned to take place during 2010.

Date new versions published

April 2006

Planned review date

December 2010
