

FIELD ENGINEERING AND TECHNOLOGY**Revision and Rollover of *Welding* unit standards**

Subfield	Domain	Id
Mechanical Engineering	Welding	2671-2698, 15133, 15134, 18105, 18106, 18108

Competenz has decided that the unit standards listed above, which were registered in November 1994, October 1999 and April 2001, should have their period of registration extended.

Competenz is currently engaged in a major review of mechanical engineering qualifications, and the currency of standards in this domain is therefore being maintained until they have been reviewed.

The review of these unit standards is planned to take place during 2006/2007.

Date new versions published

April 2006

Planned review date

December 2007

Reason for the revision

To ensure standards in this domain are current until the review is completed.

Main changes resulting from the revision

- References have been updated.
- Minor editorial changes undertaken to remove errors created by changing references.

Impact on existing provider accreditations

None.

Impact on existing qualifications

None.
