

FIELD MANUFACTURING**Review of *Food Production – Baking* qualifications**

National Certificate in Food Production – Baking (Level 2) [Ref: 0588]

National Certificate in Food Production – Baking (Level 3) [Ref: 0589]

National Certificate in Food Production – Baking (Craft Baking) (Level 4) [Ref: 0590]

National Certificate in Food Production – Baking (Plant Baking) (Level 4) [Ref: 0591]

Competenz has completed the review of the qualifications listed above.

Date new versions published

December 2006

The next qualification review is planned to take place during 2011.

Summary of review and consultation process

These qualifications were registered in February 1999 and have undergone a planned review. Extensive consultation and industry discussion resulted in the updating and redevelopment of the existing qualifications and the development of a new qualification for Instore/Franchise operations.

Main changes resulting from the review

The National Certificate in Food Production – Baking (Level 2) [Ref: 0588] and the National Certificate in Food Production – Baking (Level 3) [Ref: 0589] required minimal changes to the industry specific requirements. Some generic standards have been removed and the elective requirements have been updated to take account of standard reviews and new domains on the Framework.

The National Certificate in Food Production – Baking (Craft Baking) (Level 4) [Ref: 0590] has been restructured with all standards becoming compulsory to reflect the specialist focus required to be a craft baker.

Changes to the National Certificate in Food Production – Baking (Plant Baking) (Level 4) [Ref: 0591] reflect plant industry skills and knowledge requirements for the use of automated equipment to produce plant bakery products.

Overall analysis of the current qualifications revealed an industry need to develop a new qualification that would capture skills and knowledge required by a baker working within the Instore/Franchise area. Thus the **National Certificate in Baking (Instore/Franchise) (Level 4) [Ref: 1267]** has been registered.

All of the qualifications have been classified in the domain *Baking*.

National Certificate in Food Production – Baking (Level 2) [Ref: 0588]

National Certificate in Baking (Level 2) [Ref: 0588]

Key to Qualification Review Categories

Category A The qualification is published as a new version with the same NQF ID	Changes are made to SSB name, contact details or purpose statement
	No change is made to title, rules or components of the qualification
	No transition arrangements are required
Category B The qualification is published as a new version with the same NQF ID	Changes are made to title, rules or components
	The new version of the qualification recognises a similar skill set to that recognised by the previous version
	The SSB is confident that people awarded the new or previous version are comparable in terms of competence
	Transition arrangements are required if candidates must gain additional/different credits for the new version
Category C A new (replacement) qualification is published with new NQF ID	Significant changes are made to the qualification in terms of components, structure, type or level
	The SSB views people with the replacement qualification as being significantly different in terms of competence from those with the replaced qualification
	Transition arrangements are required
	Transition may be limited to phase-out dates
Category D Qualification will expire. There is no replacement qualification	Qualification is no longer required by industry
	The qualification is designated as expiring and a last date for meeting the qualification requirements is set
