

FIELD MANUFACTURING**Review and Reinstatement of *Operation of Energy and Chemical Plant*, and *Safety and Legislation for Energy and Chemical Plant* unit standards**

| Subfield | Domain | Id |
|---------------------------|--|------------------|
| Energy and Chemical Plant | Operation of Energy and Chemical Plant | 3040, 4553, 4559 |
| | Safety and Legislation for Energy and Chemical Plant | 3068 |

The NZ Extractive Industries Training Organisation has completed the reinstatement of the unit standards listed above that were designated expiring in June 2005.

Date new versions published**February 2006****Summary of review, reinstatement, and consultation process**

The above unit standards were reviewed and designated expiring in June 2005. However, various sectors of industry have advised they are still required for some occupations. The review team comprised providers and representatives from key industries who verified the decision by way of industry networks.

Main changes resulting from the review

The review process has resulted in the following changes.

- New versions of the standards have been issued
- Accreditation and moderation statements have been updated to match AMAP 0079
- Minor editorial changes for consistency with other standards reviewed in June 2005.

Impact on Accreditation and Moderation Action Plan (AMAP)

The unit standards have been reinstated on AMAP 0079.

Impact on existing provider accreditations

None.

Impact on existing qualifications

None.

There has been no change to standards' Ids, classification, titles, levels, and credits
