FIELD ENGINEERING AND TECHNOLOGY

Revision and Rollover of *Electricity Supply* unit standard 14701

Subfield	Domain	Id
Electricity Supply	Electricity Supply – Power System Maintenance	14701

The Electricity Supply Industry Training Organisation (ESITO) has revised the unit standard listed above, which was registered in February 2004.

The review of this unit standard is planned to take place during 2007.

Date new versions published **July 2006**

Planned review date **December 2007**

Reason for the revision

To remove Unit 14700, *Apply and remove safety measures in an electricity supply environment* as a prerequisite to Unit 14701, *Manage electricity supply work control systems*. Being able to 'manage' does not necessitate having to be able to 'apply'.

The revision also provided an opportunity to update references and special notes.

Main changes resulting from the revision

- Removal of unit standard 14700 as a prerequisite.
- All references to 'enterprise' were updated to read 'industry'.
- Special Note 2 was updated.
- SR-EI updated to SM-EI.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

None.
