FIELD ENGINEERING AND TECHNOLOGY

Revision of *Maintenance and Diagnostics in Mechanical Engineering* unit standards

Subfield	Domain	Id
Mechanical Engineering	Maintenance and Diagnostics in Mechanical Engineering	2397, 2398, 2399, 2401, 2402, 2403, 2404, 2406, 2407, 2408, 2409, 2410, 19874

Competenz has revised the unit standards listed above.

The review of these unit standards is planned to take place during 2007.

Date new versions published **July 2006**

Planned review date **April 2007**

Reason for the revision

The purpose of this revision is to update the entry information of the above standards. This has become necessary for two reasons:

- Unit standard 2824, *Demonstrate knowledge of, and apply, safe working practices on an engineering worksite* has been replaced with unit standards 21911, *Demonstrate knowledge of safety on engineering worksites* and 21912, *Apply safe working practices on an engineering worksite.*
- Some prerequisites are no longer appropriate in the light of a major review of the National Certificate in Maintenance and Diagnostics in Mechanical Engineering (Level 4) [Ref: 0125].

Main changes resulting from the revision

Entry information updated.

Impact on existing provider accreditations

None.

Impact on existing qualifications

None.
