

FIELD MANUFACTURING**Revision and Rollover of *Dairy Technology* unit standards**

Subfield	Domain	Id
Dairy Manufacturing	Dairy Technology	760, 761, 764, 765, 766, 768, 769, 770, 8959, 8960, 16300, 16304, 16684, 19524, 19739, 19968, 19981, 19983, 19996, 20003-20005, 20010, 20013

The New Zealand Industry Training Organisation has revised and rolled over the unit standards listed above, which were registered in January 1994, April 1997, July 1999, and June 2003.

The reason for the rollover is to maintain the currency of the unit standards until they have been reviewed.

The review of these unit standards is planned to take place during 2008.

Date new versions published

June 2006

Planned review date

December 2008

Reason for the revision

The unit standards have been revised to update the provisions in the special notes and to bring them up to current technical criteria.

Main changes resulting from the revision

- Special notes have been updated to include changes to legislation and references.
- Purpose statements, elements, and performance criteria have been amended for clarity and to bring them up to current technical criteria.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

Qualifications that contain the revised standards or classifications are tabled below.

Affected	The qualification lists a revised classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits
