Subfield	Domain	Id
Transport Studies	Cargo and Freight	13233, 13242, 13243
	Commercial Shipping Practice	13257, 13258
	Transport Law	13263, 13264

The NZQA National Qualifications Services (NQS) has completed the review of the standards listed above that were registered in September 1998.

Date review completed

May 2006

Summary of review and consultation process

Standards 13242, 13242, 13263 and 132634 have never been used since they were registered. One provider has used standard 13233 and a different provider has used standards 13257 and 13258. In all cases there is no evidence of any interest in using any of these standards in the future. As a result of minimal usage and minimal intent for use, the seven standards were designated category D.

In consultation with the Aviation, Tourism and Travel Training Organisation (ATTTO), it was agreed that responsibility for the remaining four standards in the cargo and freight domain (standards 13232, 13247, 13248 and 13249) will be transferred to ATTTO.

Main changes resulting from the review

Unit standards categorised as category D expire at the end of December 2008.**Impact on existing provider accreditations**

Impact on Accreditation and Moderation Action Plan (AMAP)
