

FIELD PLANNING AND CONSTRUCTION**Review of *Specialist Interiors* unit standards**

Subfield	Domain	Id
Construction Trades	Specialist Interiors	4336, 4340, 4342-4344, 4346, 4347, 6124, 6155, 21947, 22217, 22218

The Building and Construction Industry Training Organisation (BCITO) has completed the review of the unit standards listed above.

Date new versions published

November 2006

Planned review date

December 2011

Summary of review and consultation process

These unit standards were reviewed to incorporate changes overlooked in the previous review (April 2006). The post-assessment moderation process identified some issues of consistency and difficulty of assessment for standards within the National Certificate in Specialist Interiors (Proprietary Partitions Installation) with an optional strand in Access Floors Installation [Ref: 0276] and the National Certificate in Specialist Interiors (Suspended Ceilings Installation) with an optional strand in Access Floors Installation [Ref: 0277]. The BCITO moderation team identified quality issues and made recommendations for improvement. These recommendations were then discussed and approved by a working party consisting of direct representatives from the Specialist Interiors industry.

Main changes resulting from the review

- Titles of all unit standards have changed to more accurately reflect the outcomes of the unit standards.
- Unit standards 4343, 4347, and 6124 have had a 'Demonstrate knowledge of' element added for consistency with the rest of the domain.
- Purpose statements have been altered to match the elements and performance criteria.
- Special notes have had definitions added for clarity, and the 'industry practice' special note has been reworded in unit standards 4343 and 4347 and added to unit standards 4342, 4346, 6124, 6155, 22217, and 22218.
- Performance criteria and range statements have been amended to clarify assessment requirements.
- The final 'clean up' element has been removed from unit standards 4342, 4343, 4346, 4347, 6124, and 6155, as it was considered to be superfluous. Performance criteria have been reworded to include cleaning up as part of each task.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

Qualifications that contain the reviewed standards or classifications are tabled below.

Affected	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
Not materially affected	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following Building and Construction Industry Training Organisation qualifications are not materially affected by the changes. They will be updated when they are next reviewed.

Qualification title	Standard in the qualification
National Certificate in Carpentry (Level 4) [Ref: 0016]	4346, 4347, 6155
National Certificate in Specialist Interiors (Proprietary Partitions Installation) with an optional strand in Access Floors Installation [Ref: 0276]	4340, 4342, 4343, 4344, 4346, 4347
National Certificate in Specialist Interiors (Suspended Ceilings Installation) with an optional strand in Access Floors Installation [Ref: 0277]	4336, 4340, 4342, 4343, 6124, 6155

Summary of main changes

All changes are in **bold**.

Key to review category

- A** Dates changed, but no other changes are made - the new version of the standard carries the same Id and a new version number
- B** Changes made, but the overall outcome remains the same - the new version of the standard carries the same Id and a new version number
- C** Major changes that necessitate the registration of a replacement standard with a new Id
- D** Standard will expire and not be replaced
