

FIELD PLANNING AND CONSTRUCTION**Review of *Fibre Cement Linings* unit standards**

Subfield	Domain	Id
Construction Trades	Fibre Cement Linings	6068, 6069, 6072, 6074, 6076-6078, 22157

The Building and Construction Industry Training Organisation (BCITO) has completed the review of the unit standards listed above.

Date new versions published

November 2006

Planned review date

December 2011

Summary of review and consultation process

These unit standards were reviewed to incorporate changes overlooked in the previous review (April 2006). The post-assessment moderation process identified some issues of consistency and difficulty of assessment for standards within the National Certificate in Fibre Cement Linings with strands in Fixing and Finishing [Ref: 0272]. The BCITO moderation team identified quality issues and made recommendations for improvement. These recommendations were then discussed and approved by a working party consisting of direct representatives from the Fibre Cement Linings industry.

Main changes resulting from the review

- Titles of unit standards 6068, 6069, 6076-6078, and 22157 have changed to more accurately reflect the outcomes of the unit standards.
- Purpose statements have been altered to match the elements and performance criteria.
- Special notes have had definitions added for clarity, and the 'industry practice' special note has been reworded in unit standards 6072, 6074, 6076, 6077 and 6078, and added to unit standards 6069 and 22157.
- Performance criteria and range statements have been amended to clarify assessment requirements.
- The final 'clean up' element has been removed from unit standards 6072, 6074, 6076, 6077 and 6078, as it was considered to be superfluous. Performance criteria have been reworded to include cleaning up as part of each task.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

Qualifications that contain the reviewed standards or classifications are tabled below.

Affected	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
Not materially affected	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following Building and Construction Industry Training Organisation qualification is not materially affected by the changes. It will be updated when it is next reviewed.

Qualification title	Standard in the qualification
National Certificate in Fibre Cement Linings with strands in Fixing and Finishing [Ref: 0272]	6068, 6069, 6076, 6077, 6078

Summary of main changes

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same Id and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same Id and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new Id
D	Standard will expire and not be replaced

Subfield Construction Trades
Domain Fibre Cement Linings

Id	Title	Level	Credit	Review Category
6068	Identify and describe the manufacture of fibre cement sheets and identify accessories Identify and describe the manufacture and storage of fibre cement sheets and identify accessories	2	2	B
6069	Identify and order stopping compounds for fibre cement sheets Identify, calculate quantities and order stopping compounds for fibre cement sheets	3	6	B
6072	Demonstrate knowledge of and fix fibre cement sheets to interior surfaces on site	4	20	B
6074	Demonstrate knowledge of and fix fibre cement sheets to interior and exterior ceilings on site	4	14	B
6076	Demonstrate knowledge of and finish fibre cement areas on site Demonstrate knowledge of, stop and finish fibre cement areas on site	4	35	B

Id	Title	Level	Credit	Review Category
6077	Demonstrate knowledge of and finish architecturally detailed fibre cement areas on site Demonstrate knowledge of, stop and finish architecturally detailed fibre cement areas on site	4	18	B
6078	Demonstrate knowledge of and construct architectural details in fibre cement sheets on site Demonstrate knowledge of and fix fibre cement sheets to architectural details on site	4	12	B
22157	Interpret plans and specifications, calculate quantities and prepare to install fibre cement linings Calculate quantities, check framing and substrate, and set out for fibre cement linings	3	8	B
